

CITY OF WILMINGTON
STORMWATER APPEAL REQUEST
INFORMATION SHEET

Your Stormwater rates are based on the amount of impervious surface – like buildings, asphalt, and concrete – within a property’s boundary line. Appeals should be filed when a customer believes that the impervious area has been incorrectly calculated or applied, or when property ownership or boundary is incorrect.

924.10 RIGHT TO APPEAL

A property owner may challenge the measurements of impervious surface assigned his/her property by filing and appeal with the Utility Billing Department for adjustment thereof, stating in writing the grounds for the appeal. The Public Works Director shall cause appropriate investigation thereof and report the findings to the property owner. The property owner may further appeal the findings to the City Board of Control, who shall determine whether an adjustment in the measurement for any such lot or parcel is necessary.

Please submit your request for appeal in writing, using the Stormwater Appeal Request form. Your request must contain all the information listed on the form, along with any documentation. Documentation should include printout or drawing of the area in question with accurate measurements and descriptions. Please note that any submitted documentation will not be returned to the property owner. Telephone requests for Stormwater appeals will not be accepted.

CITY OF WILMINGTON
STORMWATER APPEALS
