

CITY OF WILMINGTON
Account Review Request
Information Sheet

Your sewer rates are determined in part by the amount of water consumed on your property, and sometimes sewer bills can be affected by problems with your water system. If you think your sewer bill is too high because of a problem that caused water usage that did not go down the drain or enter the sewer system, per Wilmington Codified Ordinances 923.07 the Board of Control may review your account to see if it can be adjusted.

923.07 ADJUSTMENTS AND APPEAL.

*In the event that inequities are believed to exist, by reason of the application of the schedules set forth in Section [923.04](#) or [923.05](#), to a particular property owner or resident, because of unusual circumstances, as where water as charged by the Waterworks Department is largely used on the premises and does not go into any stream or into the sewerage system, or other unusual circumstances, such property owner or resident, may request an adjustment in writing on a form prepared by the Director of Public Service, and the same shall be considered by the Board of Control, which is authorized to make necessary adjustments in the charge against such property owner or resident where an inequity is found to exist.
(Ord. 0-16-81. Passed 12-15-16.)*

Please submit your request for review of charges in writing, using the Account Review Request Form. Your request must contain all the information listed on the form, along with the documentation. Sorry, we cannot accept telephone requests for account reviews.

To be considered for an adjustment Customers must have had service with the city for twelve consecutive months

.
Adjustment must exceed thirty dollars.

Adjustments will not be issued for leaks where the water did return to the sewer system, such as a toilet or other interior fixture leaks.
