PRO VOLLEYBALL FEDERATION NEWS & NOTES

Pro Volleyball Federation, USA Volleyball Announce Alliance

Pro Volleyball Federation has teamed up with USA Volleyball, the national governing body of the sport in the United States, to promote volleyball at its highest level. USA Volleyball will support Pro Volleyball Federation's professional league in America, which launched in January. The partnership reinforces the League's commitment to work with USA Volleyball clubs, athletes and regions while USAV supports Pro Volleyball Federation's commitment to providing top professional opportunities to America's greatest female volleyball players.

Pro Volleyball Federation Partners With Bolt6

Pro Volleyball Federation began the inaugural season in partnership with Bolt6, a sports technology leader that delivers services in tracking, video replay, and XR products.

Bolt6 is providing the League with video replay officiating that utilizes broadcast and 14 specialist 4K cameras placed around the court. While the video is made available to anyone with a device and Internet connection, the Pro Volleyball Federation is using a centralized replay center – a world first for volleyball. Bolt6 will also provide the output of the decision to broadcast, in-stadium displays, and the first referee.

Landmark Agreement With VolleyStation

VolleyStation will provide a centralized data management system to help the League create a database of teams, players, and matches. This information will be shared via Pro Volleyball Federation digital platforms seconds after the conclusion of a point. Data will be pushed in real-time to both teams, websites, and the media and can seamlessly integrate with television broadcast outlets to allow for in-depth analysis during a match. VolleyStation is not limited to match statistics, as coaches can use data to scout opponents as well as evaluate players on their own rosters. In addition, the system will provide video as well as live webinars to train officials to work comprehensively with the system.
