

November 5, 2020

Dear parents/guardians and staff:

Salt Lake County Health Department has determined that Skyline High School has had 15 or more cases of COVID within a two-week period. Under the recommendations outlined in the [State of Utah's COVID-19 School Manual](#), no students should attend school in-person until Friday, November 20, 2020. Online or virtual instruction may continue.

If you/your child develops any of the following symptoms, contact your healthcare provider or find a COVID-19 testing site near you by visiting [coronavirus.utah.gov](https://coronavirus.utah.gov). If symptomatic, please do not leave home for any reason except to seek medical care. Remain isolated while waiting for your test results.

**One or more of these symptoms:**

- cough
- shortness of breath
- difficulty breathing
- fever of 100.4° F or higher
- chills
- new loss of taste or smell

**Two or more of these symptoms:**

- headache
- muscle pain
- sore throat
- congestion or runny nose
- nausea or vomiting
- diarrhea

COVID-19 is a highly contagious viral infection that causes a mild to severe respiratory illness. The virus that causes COVID-19 is thought to spread mainly from person to person through respiratory droplets produced when an infected person coughs, sneezes, or talks. These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs. Spread is more likely when people are within 6 feet of one another for 15 minutes or more. Wearing a mask or cloth face covering is known to help prevent transmission of COVID-19. For more information about COVID-19, visit [CDC.gov/coronavirus](https://www.cdc.gov/coronavirus).

Sincerely,

Salt Lake County Health Department
