

Bristol Warren Regional School District

Our [Future Ready Plan](#) has the ultimate goal to personalize student learning. We are able to use the Future Ready framework to accomplish this objective. Recent circumstances have prompted us to escalate our work on the Future Ready gear of student data privacy.

The elements that comprise this Gear are as follows:

- Data and Data Systems
- Data Policies, Procedures, and Practices
- Data-Informed Decision Making
- Data Literate Education Professionals

In an attempt to protect our student data and comply with [FERPA and COPPA](#) regulations, we are developing a process to evaluate apps, extensions and web based software for staff and students. To read more about student data privacy, click [HERE](#).

BWRSD is accepting submissions using the [BWRSD App/Extension/Service Request & Privacy Evaluation Form](#).

There is a **quarterly evaluation** session scheduled for app/extension/software evaluation.

The first attempt at app/extension/software evaluation is scheduled to begin now and end on **April 8, 2018 at end of day**. At that time, submissions will be closed for this window.

Future evaluation sessions will be announced accordingly.

- To see the resources that are already approved in the district [CLICK HERE](#)
- Recognizing that a number of staff members may submit a request for the same product, we will make the requested list (as they are entered by users) available to you on our website. [Here is the link](#).

Please be advised that this is an ongoing, ever improving process, however we would like to make this available to you at this time.
