We have just wrapped up Unit 7 and will be sailing into the spring week (I hope you have a GREAT one). After spring vacation, we will be transitioning into Unit 8. In this unit, students study South Asia as a cultural region where religious affiliations have unified and divided the people living there. This region is affected by the seasonal monsoon winds which boost agricultural production yet result in massive flooding. As always if you have any questions please email me.

Science: Brent Knudtson bknudtson@lpsfrisco.com

Get ready for an electrifying adventure into the world of energy!

Over the next couple of weeks we'll be looking at different types of energy and how they're alike and different:

1. Gravitational potential energy (think rollercoasters!)
2. Elastic potential energy (like stretchy rubber bands)
3. Chemical potential energy (the power in your food)
4. Kinetic energy (things in motion)

So, charge up your curiosity and get ready to energize your mind! This unit is going to be a blast!
