

15 Cases in 14 Days?

Public health experts
STRONGLY RECOMMEND
you move to
virtual instruction
FOR 14 DAYS

How it works:

School is open for in-person learning

School reopens
Day 15
Day 14
(last day of reset)

Virtual Learning "reset" recommended

Day 1 of reset

The 14 days begins on the date the health department receives notice of the 15th case, and the timeframe is independent of any positive student's isolation period.

The 14-day virtual period is like a "reset" button intended to halt COVID transmission in the school and give the school community a chance to start fresh with COVID-free in-person learning.
