At-Home Virtual Learning

INSTRUCTION ACCESS

Students will need a device and internet access. ROISD has a limited supply of devices to loan to students/families for virtual learning. A stable internet connection is critical for students to access online instruction every day. A camera is recommended for zoom instruction and teacher meetings, however, it is not required.

Device recommendation

- PreK - 1st Grade – iPad
- 2nd - 12th Grade – ChromeBook or laptop

Learning Management System (LMS) / Instruction Platforms

- PreK - 1st Grade – Seesaw
- 2nd - 5th Grade – Google Classroom
- 6th - 12th Grade – Canvas

VIRTUAL CURRICULUM AND GRADING

- All instruction and assignments, regardless of the delivery method, will follow the state TEKS aligned curriculum and pacing (scope and sequence)
- The district will support virtual learning with state and district materials for online instruction
- Rigor and expectations are the same for both at-home virtual and in-person learning
- School supplies should include basic pencils, pens, paper as well as crayons, scissors, etc. for elementary; teachers may have some additional material needs based on the class
- All ROISD students will receive grades for assignments following the district grading policies

ATTENDANCE

- Daily attendance and online engagement is calculated by the grade-level Learning Management System (LMS) in one of three ways:
 1. Daily engagement time in LMS
 2. Daily progress through documented student-teacher interactions
 3. Daily completion of assignments / submitted progress
- State education code mandates students must be present 90% of the days a course is offered to be awarded credit for the course and/or to be promoted to the next grade
- There is not a waiver for attendance for virtual learners
- Virtual learners must engage daily in the LMS to be present

STUDENT-TEACHER-PARENT INTERACTION

- **Teachers will:**
 - Post daily instruction schedule
 - Provide students/parents with communication tools and times available to be reached by e-mail, Zoom chats, phone calls, etc.
 - Ensure all students have resources for intervention, if needed
 - Be responsible for providing quality instruction and learner assistance
- **Students will:**
 - Engage daily in Learning Management System
 - Complete assignments and submit them on time
 - Be responsible for learning and seeking assistance
- **Parents will:**
 - Support their at-home learner with a simulated school setting that is conducive to learning – including appropriate attire and backgrounds for video meetings
 - Familiarize themselves with methods of delivery through the LMS
 - Seek assistance from the classroom teacher or campus administration for learner success
 - Make academic decisions in the best interest of their student – contact the campus if you wish to switch to in-person instruction at the end of the six week grading period

IN-PERSON OPPORTUNITIES FOR VIRTUAL LEARNERS

- **At-Home Virtual Learners** can receive in-person instructional supports as needed by request for special education, dyslexia, speech, and more.
- **Secondary Elective Courses** – At-Home Virtual Learners will have the opportunity to participate in UIL and some CTE courses on campus. Parents will be responsible for transportation to and from the campus. Students must self-screen and have a temperature check if required at the campus. Students will not be allowed to linger at the campus before or after class.

Red Oak ISD students will be allowed to change their instructional method from in-person or at-home virtual at the six-weeks grading period. Forms will be available at the campus office. For more information, please visit the ROISD Return 2 Learn section of the webpage.
