

March 26, 2020

Dear Students and Parents,

BISD has announced an extension to our closure to April 24th, which brings the District into alignment with emergency declarations announced earlier this week by our district's cities and counties. As a result of the extended closure, we have combined the faculties of both high schools to ensure all students are receiving the same lesson in each content area during this time of TEA-required remote instruction. The new lessons that will be distributed this Friday for the week of March 30th-April 3rd. They are the first lessons created by the combined efforts of the two high schools. We are now ONE online high school as it pertains to instruction for our students. Please continue to contact your student's teachers, counselor or administrator at your home campus should you have any questions.

Additionally, we have both sent out information regarding prom and graduation prior to this message. We would like to reiterate that prom has been postponed for both high schools but will be rescheduled for a future date when more information is known. We ask that you continue to be patient as things evolve over the next several weeks until a reliable decision can be made regarding a time and place for both schools' proms.

As of now, the dates for graduation have not changed, and we are optimistic those dates will hold. Like prom, should we need to postpone the dates of graduation, we will let you know as soon as possible. What is most important to keep in mind is that we will have a prom and a graduation ceremony at some point. We are in solidarity with each other to ensure that we preserve as many memories as we can for the Class of 2020 and their families.

Please let us know should you have any questions or concerns. Stay safe and continue to keep up the great work!

Sincerely,

Ross Sproul
Principal
Boerne High School

Eddie Ashley
