

Family ID Registration Required for Athletics

I hope this message finds you and your families well. You are receiving this message as the first step in registering your student for High School sports, which includes setting up an account on our FamilyID online platform. If you already started an account last spring for your current 8th and 9th grade student please update your account. Moving from our old paper process to this electronic process has many benefits which include supporting current social distancing expectations. After reading through this message please navigate to the FamilyID site using the link below.

Please begin this registration process by filling out the Intent to Participate. Once completed you will be able to upload your child's physical exam (A Form). The physical exam must be dated on or after January 1st 2020. On December 4th you will receive a message requesting that you fill out an online B form (Interval Health History) for the Winter sports season which is scheduled to begin on January 4th, 2021. You will not be able to register for the Winter sports before this date. Please complete all of these by Friday, December 11th to ensure that our school medical staff have adequate time to clear your child for the January 4th start date.

If you have any questions, please do not hesitate to contact me. Stay safe!

Some of the benefits of utilizing this system include but are not limited to:

Ease of Access of Emergency Information: Your child's emergency information, including allergies and emergency contacts, will now be one button away for any faculty or staff member who is responsible for them at an extracurricular function. This will ensure that in case of an emergency, all relevant information can be accessed and shared in the most efficient manner possible.

Efficiency of the Registration Process: Once you create the profile for your son/daughter, fields such as date of birth, address, emergency contact, special instructions/considerations, etc. will be saved for you. You will not have to repeatedly fill out this information unless you need to make a change or add special instructions. Registration will now sometimes be as simple as checking off the program you are consenting to and providing your electronic signature.

Peace of Mind: In utilizing an online registration system, parents will have the ability to easily check what programs they have their child(ren) for. Forms will no longer be lost in transit. If there is a problem with your registration (i.e; expired medical clearance), you will be notified of that immediately and will be able to rectify the situation at your earliest

convenience. Additionally, you will have the ability to update forms via scanning and uploading from your computers or through the camera on your mobile device.

Data Privacy: FamilyID is a service that Great Neck Public Schools has paid for but is FREE for parents to use. AS such, we now have the ability to limit your child's information to only the faculty and staff for whom it is necessary and only for the time period during which it is required.
