**What has been your favorite moment at ECHS so far?**

My favorite moment at ECHS so far has been the talent show. The talent show was really enjoyable and I liked seeing everybody's talents.

**What are your specific interests in or outside of the school?**

My interests in and outside of school are drawing and running. I love drawing it is my hobby and will 100% be in my career. Running is another interest I have and I really love running. I ran track for 2 years in middle school on a varsity team and I loved it. I still run and it is just great to go outside and enjoy the air push on you while you run.

**What are your post-high school plans?**

After high school, I want to go to college and pursue my career as a Graphic Designer or Cartoonist (not sure yet on which career).

**What are your favorite clubs or community service opportunities?**

My favorite community service activity opportunity was gardening in recycling club. I enjoy being outside and just enjoying the service of recycling club. This is especially since I get to have choices in what I do in the club whether that's campus cleanup, bins, or gardening.

**What has been your favorite moment at ECHS so far?**

My favorite moment in Early College so far has to be where all this adventure started, Bridge week. I loved meeting new people and seeing what each person brought. Things like curiosity, excitement, joy, and themselves. I was able to understand what the word diversity meant.

**What are your specific interests in or outside of the school?**

My specific interests inside the school are basically all the subjects of school. All the way from English to Math, I do not have a favorite subject. I'm interested in everything since it's a way where I can see what I'm fond of. Outside of school, I usually try to hang out with friends or family.

**What are your post-high school plans?**

I want to be able to get into a workforce so I can experiment what it's like to do a daily job and to go to the University of South Carolina and get a degree in Biology or Finance. I want to be able to find my path.

**What are your favorite clubs or community service opportunities?**

This year, I was able to attend Swampfest. In which I was able to not only help the community but learn new things associated with forest creatures.
