### *Caring for Kids is Different*

Children are not just miniature adults. Children's teeth can be very susceptible to cavities as they come in. The good news is that identifying harmful diet and hygiene habits, along with applying fluoride to teeth can significantly reduce the chance of your child having a cavity.

Baby (primary teeth) are important. Primary teeth not only help children speak clearly and chew naturally, they also aid in forming a path that permanent teeth can follow when they are ready to erupt.

### *Sports Safety*

One of the least expensive, smallest, yet most effective pieces of protective equipment available to all athletes is the mouth guard. A mouth guard should be flexible, comfortable, fit properly & be easy to clean. A mouth guard can protect a child's teeth, lips, cheeks, gums & the jaw joint from sports related injuries.

### *Caring Personalized Treatment*

We believe that quality children's dentistry is about more than just regular dental visits. Our goal is to educate parents and kids on good dental habits for healthy smiles that last a lifetime. Our mission is to provide a unique and exceptional environment for children from infants through college age including children with special needs. To make sure that this and future generations of children grow up with a positive image of dental visits, we recommend the first dental exam by 12 months of age. Many dental diseases can be avoided or treated more gently if found early.

### *Smiles that Last*

Dental sealants are a remarkable protective coating applied painlessly to the chewing grooves of the back teeth. Dental sealants are considered one of the greatest advances in modern dentistry and will help reduce the most common dental disease "the cavity".

### *Dental Trauma*

If a tooth is knocked out or broken, Remain Calm; then find the tooth or tooth fragments. Place the tooth in milk or contact lens solution; keep the tooth moist (use water if nothing else is available) Call your pediatric dentist as soon as possible.

*Dentistry is fun at our office*
