Good Morning NRMS Students and Families,

We are writing to remind families of the traffic flow for the **staff and student parking lot** that was put in place last year.

To ensure student and staff safety in the lot when walking to/from the building, you will see **barriers at the start of each parking row**. This means staff and students will need to drive around the back of the lot and then turn left down your designated parking lane from the other side. Please be advised that you may see some delays as a result of this small change, so please be sure to leave yourself a little extra time when coming to school.

Also, please be reminded of the following expectations to ensure public safety:

- All drop-offs and pick-ups must occur at the **front entrance** (past the tennis courts)
- Please be aware of the pedestrian walkways; proceed with caution
- No entering or exiting via Sherman Road/Oakdale Road
- Please do not turn into the administration side of the building to pick up your student

The process for exiting the lot will remain the same.

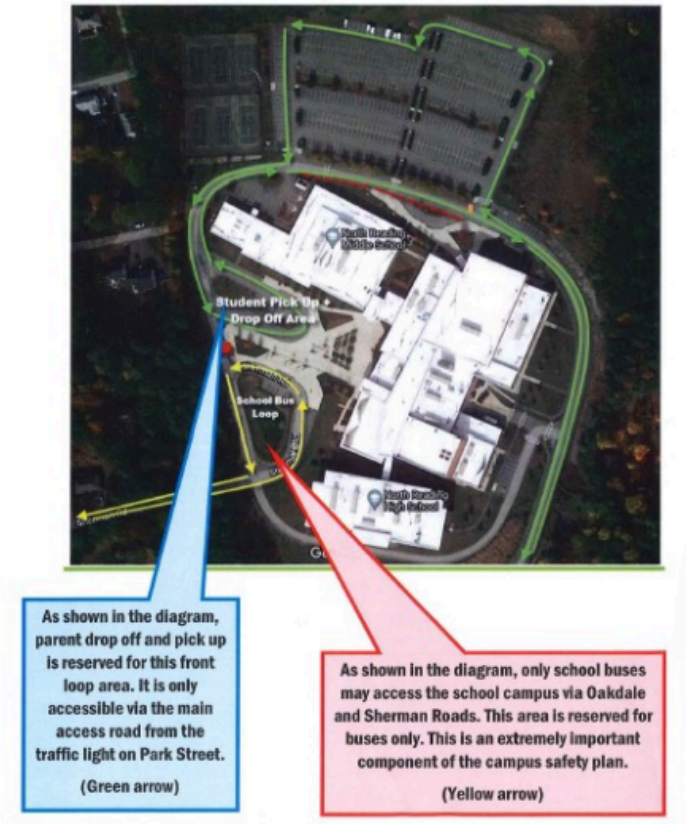

We appreciate your cooperation in helping us maintain a safer parking environment.

Please see the attached maps for your reference.

We forward to seeing you soon,
Ms. Sarah Auger & Ms. Laura Oliveto

Upper campus travel.

Lower campus travel and parking.
