

Directions for Midway Dr. Entrance:

1. When entering the parking lot from Midway Dr., **parents** and **students** will turn right (see red arrows)
2. Continue in the direction of the red arrows. **The flow of the traffic is one way.**
3. Once you turn left to drive up the lanes near the trees, you will see that there are **two** lanes.
 - a. **Students** looking to park should stay in the inside lane (red arrows)
 - b. **Parents** looking to drop **students** off should be in the outside lane near the trees (green arrows)
4. **Students** that are parking will turn left in the parking area (identified by the red arrows) and find a parking space that is not marked reserved.
5. **Parents** dropping **students** off will be permitted to drop **students** off in the areas with green arrows
 - a. **SAFETY**: **Students** being dropped off should exit the vehicle on the opposite side on oncoming vehicles.
 - i. If dropping off along the trees, **students** should exit the vehicle on the side of the trees because there will be a flow of vehicles traveling the path of the red arrows.
 - ii. If dropping off along the green arrows near the front of the school and sidewalk, **parents** should be in the right lane, and **students** should exit the right side of the vehicle nearest the side walk. The left lane is for **parents** to be able to go around vehicles that are dropping **students** off so that they can exit the campus.
 - b. There is one exit lane out of the parking lot so please be patient and have your **student** ready to exit the vehicle when you reach the designated drop off areas.
6. You will be notified if there are any changes to this plan.
