

HOUSEHOLD EXPOSURE

To a person with Covid-19

SYMPTOMATIC Vaccinated/Non-Vaccinated

Stay home for 5 days after symptom onset; if symptom free, return to school on day 6 with mask until day 11

ASYMPTOMATIC Vaccinated

May come to school (Encouraged to test 2 times over 7 days/mask)

ASYMPTOMATIC

Non-Vaccinated

Required to test before coming to school (Encouraged to test 2 times over 7 days/mask)

What tests will work?

- Any test conducted at school (parent permission)
 - If Antigen test used, a 2ND test is required between 24-48 hrs of the 1ST test administered
- Any test administered by a health care professional

^{*}Students with a documented positive case of COVID-19 in the past 90 days do not need to test and can return to school when symptom free for 24 hours or stay in school with mild symptoms.
