

Hello Husky 3rd-5th Grade Scientists!

We will be holding a completely virtual science fair this year. Both in person and online learners are encouraged to participate in this exciting opportunity. All necessary info for how to complete your PowerPoint science fair project can be found in the “Madden Virtual Science Fair 2021” Schoology Course (If you were a Madden student last year, you are likely already a part of this course. If you are new to our campus or can’t find it in your courses, the “Join a Course” code is: 8SRN-87NR-H9GWJ)

All projects are due by Tuesday, February 16th by 8:00a.m. to the Madden Science Fair 2021 Schoology page. No late submissions will be accepted so don’t wait until the last minute! If you have any questions, please feel free to email Mr. S at Kelly.Stavinoha@fortbendis.com or send me a message through Schoology. I recommend starting your project topic selection ASAP and beginning your actual project soon as well.

Good luck and have fun!

-Mr. S
