### LIBRARY RECORDS

In Alaska, public school library records can be made available on request to a parent or guardian of that child. The Mat-Su Borough School District is working to provide notice to interested parents when their student checks out a book from the school library. By selecting, yes, once this service is available, you are electing to be notified via email each time your student checks out a book from the school library. This notification will not be provided in advance of book check out, may include a link to an external source and will only provide the current book checked out to the student.

By choosing yes, once available, you are opting to receive notification when your student checks out books from a school library.
