## Class Spotlight

### Mrs. Johnson's 1st Grade Class

In Ms. Johnson's class, students learned to tell time using large student clocks. They practiced moving the minute and hour hands, focusing on the minute hand counting by 1-minute increments. A fun part of the lesson involved students acting as the hour (left foot) and minute (right foot) hands, which helped them physically engage with the concept. Ms. Johnson presented the lesson in various ways to cater to different learning styles, ensuring all students understood. The students were highly engaged, and by the end of the lesson, they demonstrated a strong grasp of telling time.
