

City Engineer – Moline, Illinois

The City of Moline (population 42,985) is located in Rock Island County, Illinois, and makes up part of the "Quad Cities" along with East Moline, Rock Island, Bettendorf, and Davenport. Chicago is 175 miles to the east of Moline and Des Moines is 160 miles to the west.

The City Engineer directs, manages, and coordinates the design and construction of municipal infrastructure and facilities working through department personnel. The City Engineer works in collaboration with other City departments and other government entities to ensure the application of sound engineering activities and the safety of public infrastructure. The position oversees an annual operating budget of \$1.7 million, an average annual capital budget of \$17.2 million, and an authorized staff of 16 full-time equivalents. The City Engineer reports directly to the City Administrator.

The salary range for this position is \$94,004 - \$131,606. The City provides health insurance benefits and participates in the Illinois Municipal Retirement Fund, which includes pension, short-term disability, and permanent disability programs. Establishing residency within the corporate limits of the City of Moline is required within one year of date of hire. Relocation is negotiable.

The City Engineer position requires a bachelor's degree and seven years progressively responsible experience in civil engineering, including at least three years of supervisory experience; or equivalent combination of training and experience, which provides the required knowledge, skills and abilities. The successful candidate must be licensed as a professional engineer (PE) in the State of Illinois or able to obtain such licensure in a reasonable period of time.

Qualified candidates please submit your cover letter and resume online by visiting our website at:
