

## NOTICE OF JOB OPENING

### WATER DISTRIBUTION SPECIALIST

West Des Moines Water Works has an immediate opening for a Water Distribution Specialist. Duties include operating heavy equipment including Backhoe and End Loader, assisting with the maintenance of water distribution system piping, valves, fire hydrants and appurtenances, making water service connections on water mains and general labor work.

Must be a high school graduate or possess a GED with three years' experience in operation and maintenance or construction of water distribution or other pipeline systems preferred. Related experience and/or education may be substituted. You will need an Iowa Commercial Driver's License or be able to obtain one within thirty days of employment. Complete description of requirements included in position description.

Salary range is \$49,185- \$81,936 per year depending on experience and certifications. We offer a comprehensive benefits package. A background check, including Iowa driver's license records, and post offer physical examination, including drug test, are required. To apply, obtain a West Des Moines Water Works employment application at [www.wdmww.com](http://www.wdmww.com) or at the A.C. Ward Water Treatment Plant. Send completed form to [employment@wdmww.com](mailto:employment@wdmww.com) or hand deliver to the Distribution Manager or General Manager. Applications need to be received no later than June 10, 2022.
