

Fire Chief

City of Tiffin, Iowa

Apply by December 5, 2025
4:30 PM Central Time

Tiffin is one of Iowa's fastest-growing communities, located just minutes from Iowa City, Coralville, and the University of Iowa. With a population that has more than doubled in the past decade, Tiffin offers small-town charm with big-city access.

Conveniently positioned along Interstate 80 and 380, residents enjoy quick access to major employment centers, shopping, healthcare, and entertainment while maintaining the benefits of a safe, close-knit community.

Recruitment Timeline

Application due by: December 5, 2025, 4:30 p.m. CST

Virtual Interviews for Candidates: Middle of December

Finalist interviews: Week of January 5th, including community tours and public meet and greet.

How to Apply: Submit cover letter, resume and professional references by Friday December 5, 2025, to Doug Boldt, City Administrator, 300 Railroad Street, Tiffin, IA, 52340 or to dboldt@tiffin-iowa.org, subject 'Fire Chief Position'

City of Tiffin, Iowa
Population 6,700

Community Character

Tiffin prides itself on being a forward thinking, family-oriented community with a strong sense of local pride. The City blends modern residential development with established neighborhoods and scenic rural landscapes. Community events, volunteerism, and civic engagement are hallmarks of life in Tiffin. The City continues to balance growth with preservation of its small-town values and welcoming atmosphere.

Tiffin Fire Department

Since its founding in 1954, the Tiffin Fire Association has been a cornerstone of community safety. In July 2022, it transitioned from an association to an official City Department, reflecting Tiffin's growth and dedication to professional emergency services. The Tiffin Fire Department serves the City of Tiffin and surrounding rural areas across a 58-square-mile district. The combination department includes 24 volunteers and one full-time Fire Marshal, responding to approximately 700 fire, rescue, and medical calls annually. The department is committed to protecting life and property through emergency response, prevention, and education.

Mission

To protect lives and property from fires, accidents, natural disasters, and hazardous materials; provide emergency medical services; assist mutual aid partners; and prevent fires through education and prevention programs.

Department Strengths

The Tiffin Fire Department is built on a foundation of highly trained and dedicated personnel who consistently demonstrate professionalism and commitment to service. All members are required to acquire and maintain Firefighter I, Firefighter II, and EMT certifications, ensuring a strong operational capability across fire suppression, rescue, and emergency medical response. The department is equipped with a modern fleet of apparatus and specialized tools, including advanced SCBAs, thermal imaging cameras, and battery-operated rescue equipment, enabling efficient and effective response to a wide range of emergencies. This combination of skilled volunteers, robust training standards, and well-maintained resources positions the Tiffin Fire Department as a reliable and respected partner in public safety.

Department Challenges

The Tiffin Fire Department faces several operational challenges as the community continues to grow. Rapid population expansion has driven a significant increase in call volume, placing added demands on personnel—particularly volunteers. Maintaining timely response without staffed coverage at the fire station remains a concern, and the department must prioritize ongoing training to support a relatively young team. Additionally, limited facility space for operations, equipment storage, and administrative functions underscores the need for long-term planning to ensure the department can meet future service expectations.

Fleet Overview

The Tiffin Fire Department maintains a well-equipped fleet to support fire suppression, EMS, rescue, and hazardous materials response across its 58-square-mile district. The current fleet includes:

- **Ladder Truck (2016)** – Provides aerial firefighting and rescue capabilities.
- **Engines (2018, 2025)** – Modern pumpers for structural and rural fire response.
- **Brush Trucks (1997, 2007, 2009)** – Designed for wildland and grass fire operations.
- **Tanker (2020)** – Ensures water supply for rural firefighting.
- **EMS Truck (2013)** – Dedicated to emergency medical response.
- **Support Pickup (2020)** – Utility vehicle for equipment and personnel transport.
- **Command SUV (2023)** – Equipped for incident command and on-scene coordination.
- **Haz-Mat Trailer (2018)** – Specialized for hazardous materials incidents.
- **Kubota ATV (2014)** – Provides off-road access for rescue and fire suppression in difficult terrain.

This diverse fleet helps the department to respond effectively to a wide range of emergencies. Future planning includes replacing aging apparatus and addressing space limitations within the current station.

Future Needs

As Tiffin continues to experience rapid growth, the Fire Department must plan strategically to meet increasing service demands. Immediate priorities include acquiring a dedicated Fire Chief vehicle and associated equipment to support leadership and operational readiness. Additionally, replacement of aging apparatus—specifically the EMS truck and one brush truck—will be essential to maintain reliability and safety standards. Looking ahead, a long-term solution for a modern fire station is critical to address space limitations, improve response capabilities, and provide adequate facilities for training, administration, and future staffing needs.

Job Description

Position Summary

The Fire Chief is a senior-level management position responsible for leading the Tiffin Fire Department. This role oversees all fire suppression, EMS, rescue, hazardous materials response, and prevention programs. The Chief provides strategic direction, manages personnel, ensures compliance, and serves as the primary liaison with city leadership, regional partners, and the community.

General Statement of Duties

The Fire Chief serves as the executive leader of the Tiffin Fire Department and is responsible for the overall management, coordination, and administration of fire suppression, emergency medical services, rescue operations, hazardous materials response, and community risk reduction. This position provides strategic direction, supervises department personnel, responds to emergency and non-emergency incidents, ensures statutory and regulatory compliance, and promotes public safety through education, prevention, and emergency response. The Fire Chief works closely with City leadership, regional partners, and the community to ensure the delivery of high-quality emergency services in alignment with the City of Tiffin's values and growth.

Distinguishing Features of the Class

The Fire Chief is a senior-level management position responsible for the overall leadership, strategic direction, and operational effectiveness of the Tiffin Fire Department. This role is distinguished by its broad scope of authority, high level of responsibility, and direct accountability to the City Administrator and City Council. The Fire Chief generally exercises independent judgment in decision-making, policy development, and personnel management. The position requires a combination of technical expertise in fire, rescue and EMS operations, administrative proficiency, and strong leadership skills to guide a department that includes both volunteer and career personnel. The Fire Chief serves as the primary liaison between the department and other city departments, regional emergency agencies, and the public.

Examples of Essential Work

Responds to emergency and non-emergency incidents and serves as a primary responder; may serve as incident commander but is expected to perform any role, position, task, or activity in response to an emergency or incident dangerous to the public, including under NFPA 1010 (2024 ed.) Chapters 6 and 7 (Firefighter I and II) and Chapters 11-13 (Driver/Operator).

Serves as a medical responder; recognizes symptoms and administers medical care within scope of practice for certification level.

Prepares and completes required documentation including, but not limited to, patient care reports and incident reports, and submits required documentation and data to the State Fire Marshal and Bureau of Emergency Medical and Trauma Services; performs CQI of reports.

Provide team leadership and direction for all fire department operations, including city and rural fire suppression, EMS, rescue, and hazardous materials response.

Develop and implement department policies, guidelines, and standard operating procedures consistent with federal, state, and local laws.

Supervise and support volunteer and career personnel, including recruitment, retention, training, scheduling, and performance evaluation, and build a cohesive team of volunteers and career personnel.

Oversee maintenance and readiness of all fire, rescue, hazardous materials, and EMS equipment, vehicles, and facilities.

Conduct fire investigations and ensure compliance with reporting requirements and coordination with the State Fire Marshal.

Prepare and manage the department's annual operating budget and long-term capital improvement plan.

Collaborate with City staff on billing, grant applications, and fundraising efforts, as well as the Tiffin Emergency Responders' Association, Inc.

Lead community risk reduction efforts, including public education, fire prevention, and life safety programs, as well as deliver fire prevention activities to the public.

Attends and participates in department training, as well as classes and conferences on firefighting, rescue, EMS, and leadership; periodically instructs department training.

Provides advice, proposals, and recommendations to the City Administrator, City Council, and Board of Supervisors or other lawmakers, as applicable, regarding ordinances, codes, and strategic planning.

Represent the department at city council meetings, state and local community events, and regional emergency management forums and events.

Serves on and/or regularly participates in state and local organizations, groups, committees, or task forces, including the Johnson County Mutual Aid Association, Johnson County EMS Association, Iowa Fire Chiefs Association, Iowa Association of Professional Fire Chiefs, and Iowa Firefighters Association.

Maintain effective working relationships with mutual aid partners, emergency response agencies, and other city departments; coordinates mutual aid agreements, training, and drills.

Assist with code enforcement activities, including nuisance abatement and rental inspections, and enforce local codes and ordinances.

Ensure accurate documentation of incidents, patient care, and departmental activities.

Perform other duties as assigned by the City Administrator or City Council.

Required Knowledge & Abilities

Knowledge of principles and practices of modern fire suppression, rescue, prevention, and emergency medical services, as well as NFPA 1720, in city and rural areas.

Knowledge of incident command systems and emergency response protocols.

Knowledge of fire investigation techniques and methods; applicable state and federal laws and investigation and reporting requirements.

Knowledge of fire code enforcement, site plan review, and community risk reduction strategies.

Knowledge of budget development, financial management, and capital improvement planning.

Knowledge of personnel management, including supervision and leadership, training, evaluation, and fair discipline of volunteer and career personnel.

Knowledge of EMS administration, including CQI and audits.

Knowledge of city and township geography, including streets, water systems, and major infrastructure.

Knowledge of recordkeeping systems, report writing, and documentation standards.

Knowledge of public relations and community engagement strategies.

Knowledge of automatic and mutual aid agreements, Iowa Code Ch. 28E, and interagency coordination.

Knowledge of federal, state, and local laws and regulations, including OSHA and HIPAA.

Ability to lead and manage a combination of volunteer and career personnel effectively.

Ability to communicate clearly and professionally, both verbally and in writing.

Ability to analyze complex situations and develop effective solutions under pressure.

Ability to maintain composure and professionalism during emergency incidents and stressful conditions.

Ability to operate firefighting and EMS equipment safely and effectively.

Knowledge and ability to use computer systems and software for reporting, scheduling, communication, emergency incidents, investigations, and inspections.

Ability to establish and maintain positive working relationships with City staff, elected officials, regional partners, and the public.

Ability to apply independent judgment and initiative within established guidelines.

Ability to work long hours outdoors in adverse weather conditions when necessary.

Ability to handle confidential and sensitive issues with discretion and professionalism.

Acceptable Experience and Training

Bachelor's degree or higher in Fire Science, Emergency Management, Public Administration, or a closely related field is required.

A minimum of 10 years of progressive experience in the fire service, including at least 8 years as a fire officer with demonstrated experience in fire ground command, EMS operations, training program development, and departmental leadership. Experience in combination fire departments is required.

Experience developing strategic plans and managing capital improvement projects is highly desirable.

Experience working with prosecutors and testifying in court or depositions.

Must possess the following certifications

Certification as an Iowa Emergency Medical Technician (EMT) or higher is required.

IFSAC or Pro Board Certifications: Firefighter II, Fire Service Instructor II, Fire Officer II, Fire Inspector I, and Fire Investigator.

Must possess NIMS certifications (ICS 100, 200, 300, 400, 700, and 800).

Preferred education/certifications but not required

ILEA Certified.

Masters Degree or equivalent Chief Fire Officer preferred.

Required Special Qualifications

Must pass a pre-employment physical examination and drug screening.

Must be insurable under the City of Tiffin's vehicle and umbrella liability insurance policies.

Must obtain and maintain a State of Iowa Class 'B' Commercial Driver's License with air-brake endorsement.

Satisfy the requirements of an Iowa EMS Service Director within 6 months of hire. Must maintain all required fire and EMS certifications throughout employment.

Availability for emergency callouts, including nights and weekends, evening meetings, and weekend events is required.

Residency within a reasonable response time to the Tiffin Fire Department's response area will be required.

Essential Physical Abilities

Ability to perform strenuous physical tasks for extended periods, including lifting, carrying, and operating heavy firefighting and EMS equipment.

Must be able to wear and operate a self-contained breathing apparatus (SCBA) and other protective gear weighing over 50 pounds.

Capable of working in extreme environmental conditions, including heat, cold, smoke, and wet or hazardous environments.

Ability to climb ladders, crawl in confined spaces, and perform rescue operations under physically demanding and stressful conditions.

Must maintain physical fitness and stamina necessary to respond to emergency incidents and lead by example.

Ability to stand, walk, bend, kneel, and reach for extended periods during emergency response and training activities.

Must have sufficient visual and auditory acuity to perform inspections, operate equipment, and communicate effectively in emergency situations.
