State Revolving Fund Requirements

- a) Equal Employment Opportunity – Bidders on this work will be required to comply with the President's Executive Order No. 11246. Requirements for bidders and contractors under this order are explained in the specifications. By submission of its bid, each bidder acknowledges he understands and agrees to be bound by equal opportunity requirements of EPA regulations (40 CFR Part B, particularly Section 8.4 (b)), which shall be applicable throughout the performance of work under any contract awarded pursuant to this solicitation. Each bidder agrees that if awarded a contract, it will similarly bind contractually each subcontractor. In implementation of the foregoing policies, each bidder further understands and agrees that if awarded a contract, it must engage in affirmative action directed at promoting and ensuring equal employment opportunity in the workforce used under the contract and that it must require contractually the same effort of all subcontractors whose contracts exceed \$10,000. The bidder understands and agrees that "affirmative action" as used herein shall constitute a good faith effort to achieve and maintain that amount of minority employment in the on-site workforce used on the project which corresponds, for each trade used, to the minority population in the serving labor market area from which workers are reasonably available for hire for the project.
- b) Targeted Small Business - The low bidder will be required to complete and furnish documentation of their efforts to utilize WBE/MBE/SBBA businesses at the time of the bid opening. Forms which may be used for this documentation are included in the bid documents.
- c) Suspended/Debarred Contractors - Any bidder or equipment supplier whose firm or affiliate is listed in the General Services Administrative (GSA) monthly publication entitled "Lists of Parties Excluded from Federal Procurement or Nonprocurement Programs" will be prohibited from the bidding process. Anyone submitting a bid who is listed will be determined to be a nonresponsive bidder in accordance with 40 CFR Part 31. A Contractor's Suspension/Debarment Certification will be contained in the specifications; however, this certification should not preclude any interested party from ascertaining whether the certifying firm or person is actually on the GSA "Lists of Parties Excluded from Federal Procurement or Nonprocurement Programs."

BABA Requirements

This agreement is for services related to a project that is subject to the Build America, Buy America Act (BABA) requirements under Title IX of the Infrastructure Investment and Jobs Act ("IIJA"), Pub. L. 117-58. Absent an approved waiver, all iron, steel, manufactured products, and construction materials used in this project must be produced in the United States, as further outlined by the Office of Management and Budget's Memorandum M-24-02, Implementation Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure. The Contractor shall include the Manufacturer's Certification for BABA requirements for all BABA-covered items to be incorporated into the infrastructure project. The Contractor shall comply with BABA requirements, including coordination with manufacturers, distributors, and suppliers to correct deficiencies in any BABA documentation. For any change orders, the Contractor shall provide BABA documentation for any new products or materials

required by the change. The Contractor shall designate the responsible parties for determining the final classifications for all project items.
