

CITY HALL
MUSCATINE, IOWA 52761

EMPLOYMENT OPPORTUNITY

CITY ENGINEER

DUTIES:

This is an opportunity to provide engineering services to a vibrant community steeped in history. Located along the Mississippi River, Muscatine has a unique location and strong, varied economic base, with a local government committed to continually improving the quality of life for its citizens. As the City Engineer, the right candidate will have the opportunity to shape the future of the city's infrastructure in projects that include sidewalk improvement, street maintenance and construction, flood protection, sanitary and storm sewers, levee improvements, trails and parks projects as well as input on many other projects. The City of Muscatine prides itself on a positive and supportive organizational culture and teamwork.

Primary job responsibilities will involve developing, coordinating, and implementing ongoing projects and engineering tasks. This includes assessment of project issues, development of the project design and scope of work, cost estimation, engineering design, construction management, inspection, project documentation, conducting needed research, and addressing citizen issues and concerns. This position also consults with other city departments on various engineering matters and manages other staff in the engineering department.

The ideal candidate will be adept at handling multiple projects, communicate effectively in writing and orally, establish cooperative relationships across departments, be a supportive and motivating leader to the engineering staff.

SALARY: Minimum starting salary \$105,267 with benefits including excellent health insurance, life insurance, pension (IPERS), paid vacation, sick leave, holiday pay

QUALIFICATIONS:

Bachelor's degree in Civil Engineering or related field and a minimum of six (6) years experience in professional civil engineering work, including supervisory and administrative experience or any equivalent combination of education and experience.

Registration as a Professional Engineer in the State of Iowa, or ability to acquire such registration within six (6) of appointment

Considerable knowledge of the principles and practices of public works; Considerable knowledge of the investigation, design, and construction of general public works projects

Knowledge of the principles and practices of administrative management; Knowledge of Iowa DOT standards; SUDAS standards; Federal, State, and local rules and regulations.

Skill in planning and supervising the work of technical personnel in a manner conducive to full performance and high morale; Skill in directing the preparation and maintenance of engineering records, and in preparing concise technical reports in a timely manner; Skill in establishing and maintaining effective working relationships with employees, city officials, officials of other governmental agencies, contractors and the public; Skill in computer drafting and construction design using AutoCAD (or compatible program); Demonstrated skill in basic computer programs such as Outlook, Word, Excel.

Possession of a current State of Iowa Driver's License upon appointment and continued maintenance of the license; Insurable with the City's insurance company

Must reside within 30 air miles of Muscatine City limits within 6 months of employment.
