## **DOWNLOAD NEW SPENGLER CUP APP & WIN 250g GOLD**

The New Spengler Cup App is now available in the Apple Store and Google Play. The update is full of new features, that can be played in the stadium or at home, and prizes including a 250g gold bar! Download now for the chance to win free tickets! 2 tickets will be raffled daily through the app from December 19th to 24th, 2017.

Fans have their say! Coaches and journalists will no longer choose the Best Player. This year fans choose the best player on each team - via the app. In the third period, fans vote for their favourites up to the 50th minute – whether they're in the stadium or at home.

Since, "Live Challenge 1, 2 or 3" was such a hit last year; fans can now test their knowledge further with more questions! Everyday a new 10-questions "Quiz" will be released, which fans can play from anywhere, any time.

Fans can now earn points for the games and activities they play in the App and compete against other fans to win great prizes. The update also includes the "Groups" feature; invite friends and family, through WhatsApp, and battle for glory and honour.

The App remains the best place to stay up to date with all the Spengler Cup action. The "Game Center", "News", "Social Hub" and "Standings" guarantee a complete overview of this year's tournament.

The App continues to include fans in the unforgettable pre-match entertainment. Fans with the App can hold the screen of their smartphones towards the ice; together creating a spectacular lightshow.
