

HUNAR.

LAST WEEK WITH NEHA

THE 5 PM EARNINGS PUSH

10 Jan 2026 | Lunch Table Quick Read

A large 3PL in India wanted to announce bonus earnings for all its delivery partners ahead of Christmas and New Year's Eve.

Doing this manually was almost impossible!
The tele-calling team would have needed more than **24 hours** in a day and the ability to speak at least **six languages** to reach everyone in time.

They brought in Neha,
just one day before the announcement.

With all the details loaded - Neha, Our AI Agent,
began calling delivery partners across regions.

Within 4 hours,
every delivery partner was called, connected,
and informed about their bonus earnings.

What this shows

Scale is not a constraint.

We scale with you, no matter the size.

Think beyond screening,

You can reach your employees instantly
about anything that matters -
bonuses, incentives, and important updates.
