## **Brief Introduction of our NGO**

Since 2008, our NGO has been running an old age home and a rescue center. Our Founder, Late Karma yogi Shri Ravi Kalra ji started the missions of the Organization by himself going on the roads and rescuing less privileged people. He personally built a small hut on an empty plot of land and gave shelter to every abandoned person that he could rescue from the roads. Years later, today, around 1000 less privileged people are living permanently in our NGO's shelter homes located at Bandhwari Village and Mandawar Village, Distt. Gurugram, Haryana. Our NGO – The Earth Saviours Foundation is registered under 80- G of the Income Tax Exemption Act and is eligible to get support under CSR.

Those that live in our shelter homes are abandoned senior citizens, homeless mentally disabled people, deprived females, burnt victims, victims of domestic violence, rape victims, physically injured, people suffering from incurable diseases such as HIV, schizophrenia etc. These people are brought to our NGO's shelter homes by the police, Govt. Hospitals, referred by Hon'ble courts and by social welfare departments. By the grace of God, all the facilities at our NGO are completely free of charges for the less privileged people such as accommodation, food, medical aid and every day amenities.

Unfortunately, we do not receive any financial aid from the Government, however we do receive their tremendous moral support. For the day-to-day operations of the NGO, we purely bank on kind hearted individuals and corporate companies. Without their help and blessings, we would not be able to face the everyday challenge of providing a life of comfort and dignity to all the less privileged rescues that reside permanently in our Ashrams.

We wish to focus on healthcare and wellness in our CSR collaboration with your esteemed company. Considering the conditions of admissions brought to us each day, we have to pay a very notable amount of attention to their rehabilitation in terms of physical and mental health. Some of the admissions brought to our NGO are having maggots on their wounds, are underweight, and have mental disabilities to the extent that they do not remember their own names.

In an attempt to help each of these residents, we need to create an environment where everyone can rehabilitate and at the same time live with comfort and dignity. Below, we have listed all the essential requirements to foster their rehabilitation process under a health and wellness collaboration. We would also additionally request your esteemed company to involve all employees and team members to participate in their rehabilitation process by volunteering at the NGO.
