ADVICE!

"COMMUNITY OWNERSHIP OF SITES — IT'S NOT JUST ONE PERSON'S PROBLEM"

"DATA SHOULD BE USEFUL TO:"

- REGULATORY AGENCIES
- LOCAL PEOPLE
- LEGISLATORS

SESSIONS

MTR discussions involved such topics as connecting stakeholders with the kinds of data they'd most likely use understand and share.

CHALLENGES:

Disseminating data and images re: energy extraction

Air Quality Monitoring - Discussion of 3 scenarios in which air quality monitoring would be valuable. Outcomes for each scenario were identified. "Question your way to outcomes."

BARNRAISING IN MORGANTOWN

DOZENS CONVEINE IN EXCHANGE OF IDEAS, TACTICS, QUESTIONS

☀️☀️ IN THE SKY

Talk of using aerial imaging for monitoring energy extraction. Other uses include fracking sites, stormwater run-off and overcoming drone issues. Don't forget NASA and European Space Agency (ESA).
