

# THE Barnraiser

FRIDAY, NOVEMBER 3

COCODRIE, LOUISIANA

VOLUME 3, ISSUE 1

'CITIZEN SCIENCE IS INTRINSICALLY DIVERSE, BUT NEEDS STANDARDIZATION AND CONSISTENCY'

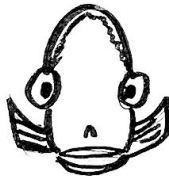

Participants discussed the issues that the standardization of Citizen Science faces, such as potential ineligibility in a court of law, quality assurance, and respect within traditional research communities. Despite these hardships, it was decided that in order to avoid a situation in which Citizen Science data is like the varying characters for our phones, standardization of methods is necessary.

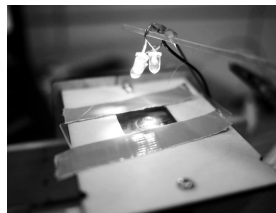

## SEVENTH ANNUAL BARNRAISING CONVENES IN COCODRIE!

WHO IS A CODE OF CONDUCT FOR? *hmm...*

IN THE MORNING WELCOME, PUBLIC LAB RESEARCH COORDINATOR JEFF WARREN ASKED US TO READ THE CODE OF CONDUCT. "IT'S A GREAT READ," HE ASSURED. THE PEOPLE AGREE. "IT'S SUCCINCT & DIGESTIBLE," SAID CHASE MATHEY OF PONTCHÉ. THE LENGTHY TEXT WAS PRAISED FOR BEING THOROUGH & NOT OVERWHELMING. MARIS JONES RESONATED WITH ITS CALL FOR EMPATHY - TRUSTING INTENT & CONSIDERING IMPACT. "IT'S FOR EVERYONE" & "WELCOMES US TO VALIDATE OUR DIVERSITY" (GILBERT ROCHAN). IT CALLS US TO BE OUR AUTHENTIC SELVES WHILE STRIVING TO BE OUR BEST SELVES. - M.J. DE BLANC

有趣而有意义的 Barnraising 对一个中国人来说,这是新奇而有趣的会议形式。

在关于社区建设的访谈中,我特别认同游戏性对新人的鼓励和引导。

KAYAK同样给人带来全新的体验。

## HYACINTHS AND HIPPOS

NON-NATIVE INVASIVE WATER HYACINTH WAS INTRODUCED TO LA AT THE 1884 NEW ORLEANS WORLD'S FAIR. IT STILL SMOTHERS THE STATE'S BAYOUS, STARVING THEM OF SUNLIGHT + OXYGEN. IN 1910, U.S. CONGRESS WAS ONE VOTE AWAY FROM BRINGING HIPPOS TO LA BOTH TO EAT THE WATER HYACINTH AND TO START A NEW GAME MEAT INDUSTRY.

## GET COMFORTABLE!

THE MOON IS IN TAURUS

Two of our resident star gazers Maris and Chase predict, "Getting comfortable is more than enough work for one day. Be unapologetic about listening to your body and getting comfortable." @astro-gab
