How do we coordinate a network of responders?

There are perennial possibilities -NATE

decolonizing TECHNOLOGY by greg

Modern tech paradigms are colonial? They seek to capture as large a "user base" as possible—and then exploit those users. Through interoperability, data standards, infrastructure etc.—we can invert this paradigm and promote user freedoms!
-This is a social and technical challenge

STOP Invisible Labor Now

So much work during crisis is invisible. You don't need to be paid to have a title, so give yourself one you'll love. Name your team while you are at it to create even more joy for your community. -Les
