On the match...

Tough match. I felt like we played pretty good. They got us in the doubles. I thought we had a good chance in the doubles, and they just got the point and some momentum. They got a lot of first sets underneath them and then rolled us. I thought we could give them a bit more of a battle today, but we did get a point. I think the first time they beat us 7-0, so I felt like we played a much better match. They played a little bit better and got the important points when they needed to.

Pawel Gajdzik, Purdue Head Coach

On the match and conditions...

Weather-wise it was a tough match. It was cold, late and a bit of a delayed start, but I think that our guys did a good job keeping their composure by getting the doubles point. They controlled every match in singles as well with the exception of one. A 20-win season is great, but we now need to regroup and prepare for Friday.

On facing Illinois in the second round...

I think it's going to be an exciting match. It's two even teams, and I think every player is competing much better at the end of the season than when we first met at the beginning of the year. It's the postseason and the match is up for grabs. The better team is going to win tomorrow because of execution.
