CAMPUS SPOTS

TRIPLE XXX is named after a brand of root beer that has been served here since the 1920s, but it's the burgers that have put this spot on the map. Indiana's first drive-in restaurant, this historic diner still is a popular and nationally-acclaimed burger joint that was even featured on "Diners, Drive-Ins and Dives."

THE BELL TOWER is Purdue University's most iconic landmark. Located at the heart of campus, students and visitors can hear it chime the hour and if you're lucky, you may even hear it play Purdue's fight song. Don't be deceived by its beauty though, this bell tower comes with the long held curse that any student that walks beneath it, will not graduate within four years.

FAMOUS ALUMNI

FROM THE SUPER BOWL TO THE MOON

NEIL ARMSTRONG enrolled at Purdue University on a Navy scholarship to pursue a degree in aeronautical engineering. He gained the distinction of being the first man to land a craft on the moon and first to step on its surface. The 27 astronauts who graduated from Purdue also include Gus Grissom, the second American in space, and Eugene Cernan, the most recent man to walk on the moon.
