INDEPENDENT AUDITOR'S REPORT

Board of Directors Purissima Hills Water District Los Altos Hills, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying Statement of Net Position of the Purissima Hills Water District (the District), as of and for the year ended June 30, 2022 and 2021, and the related Statement of Revenues, Expenses and Changes in Net Position, and Statement of Cash Flows and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Purissima Hills Water District, as of June 30, 2022 and 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's Office and state regulations governing special districts.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the State Controller's *Minimum Audit Requirements for California Special Districts*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Purissima Hills Water District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Purissima Hills Water District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Purissima Hills Water District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Purissima Hills Water District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Purissima Hills Water District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information, such as the Schedule of the District's Proportionate Share of the Net Pension Liability and the Schedule of Pension Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic

financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Matters

Change in Accounting Principle

As described in Note 1Q to the financial statements, the District adopted GASB Statement No. 87, Leases which required a restatement of net position as of July 1, 2021. Our opinion is not modified with respect to this matter.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 31, 2023 on our consideration of Purissima Hills Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Purissima Hills Water District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALSYS

JUNE 30, 2022

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Purissima Hills Water District (District) provides an introduction to the financial statements of the District for the fiscal years ended June 30, 2022 and 2021. The two-year presentation is provided for comparative purposes. We encourage readers to consider the information presented here in conjunction with the basic financial statements and related notes, which follow this section.

Financial Highlights

- The District's net position increased by 5%, or \$1,737,475, to \$33,378,097 in fiscal year 2022 as a result of current year operations. In 2021, the District's net position increased by 6% or \$1,839,110 to \$31,640,622 as a result of previous year operations.
- The District's operating revenues decreased by 19%, or \$1,672,789, in 2022 primarily due a \$1,253,800 decrease in water consumption sales. In 2021, the District's operating revenues increased by 22%, or \$1,578,175, primarily due to a \$939,259 increase in water consumption sales. These decreases are mostly attributed to COVID-19 and wet weather.
- In fiscal year 2022, the District's operating expenses decreased by 11%, or \$935,661, primarily due to a decrease in water purchases of \$531,736 and a decrease in transmission and distribution expenses of \$368,272. In fiscal year 2021, the District's operating expenses increased by 12%, or \$908,111, primarily due to an increase in water purchases of \$298,923 and an increase in transmission and distribution expenses of \$328,438.
- The District implemented GASB 87, resulting in a right of use asset of \$547,794 and lease liability of \$878,084 as a lessee, and a lease receivable of \$1,695,694 and deferred inflows of resources of \$1,033,942 as a lessor.

Required Financial Statements

This annual report consists of a series of financial statements. The Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position and Statement of Cash Flows provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Statement of Net Position includes all of the District's investments in resources (assets), and deferred outflows of resources, the obligations to creditors (liabilities) and deferred inflows of resources. It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness.

The final required financial statement is the Statement of Cash Flows, which provides information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

MANAGEMENT'S DISCUSSION AND ANALSYS

JUNE 30, 2022

Financial Analysis of the District

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position report information about the District in a way that helps answer this question.

Financial Analysis of the District, continued

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting method used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's net position and changes in it. You can think of the District's net position – the difference between assets and deferred outflows less liabilities and deferred inflows – as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position is one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning and new or changed government legislation, such as changes in Federal and State water quality standards.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements start on page 12.

Statements of Net Position

	Ju	ne 30, 2022	Ju	ne 30, 2021]	Amount Increase Decrease)	Percent Increase (Decrease)	Ju	ne 30, 2020
Current and Other Assets	\$	9,924,304	\$	9,255,623	\$	668,681	7.22%	\$	10,998,649
Right of Use Assets		547,794		-		547,794	100.00%		-
Capital Assets, Net		32,626,713		31,163,968		1,462,745	4.69%		28,138,160
Total Assets		43,098,811		40,419,591		2,679,220	6.63%		39,136,809
Deferred Outflows of Resources		242,406		250,167		(7,761)	-3.10%		309,628
Current and Other Liabilities		1,187,389		1,246,240		(58,851)	-4.72%		1,480,113
Long-Term Liabilities		7,525,070		7,702,973		(177,903)	-2.31%		8,052,271
Total Liabilities		8,712,459		8,949,213		(236,754)	-2.65%		9,532,384
Deferred Inflows of Resources		1,250,661		79,923		1,170,738	1464.83%		112,541
Net Investment in Capital Assets		26,178,279		27,029,476		(851,197)	-3.15%		23,533,668
Unrestricted		7,199,818		4,611,146		2,588,672	56.14%		6,267,844
Total Net Position	\$	33,378,097	\$	31,640,622	\$	1,737,475	5.49%	\$	29,801,512

As noted earlier, net position may serve over time as a useful indicator of a government's financial health. In the case of the District, total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$33,378,097 and \$31,640,622 as of June 30, 2022 and 2021, respectively.

MANAGEMENT'S DISCUSSION AND ANALSYS

JUNE 30, 2022

By far the largest portion of the District's net position (78% as of June 30, 2022 and 85% as of June 30, 2021) reflects the District's investment in capital assets (net of accumulated depreciation and amortization), which includes right of use assets, less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to customers within the District's service area; consequently, these assets are not available for future spending. At the end of fiscal years 2022 and 2021, the District's unrestricted net position that may be utilized in future years was \$7,199,818 and \$4,611,146, respectively. During fiscal year 2022, the beginning net investment in capital assets was decreased by \$4,134,492 and reclassified to unrestricted net position to reflect the correct application of long-term debt used to purchase and construct capital assets. This reclassification did not impact operations.

Statements of Revenues, Expenses and Changes in Net Position

	Ju	ine 30, 2022	Ju	ine 30, 2021	Amount Increase Decrease)	Percent Increase (Decrease)	Ju	une 30, 2020
Operating Revenue	\$	7,049,902	\$	8,722,691	\$ (1,672,789)	-19.18%	\$	7,144,516
Non-Operating Revenue		1,708,989		1,533,183	175,806	11.47%		1,516,078
Total Revenues		8,758,891		10,255,874	 (1,496,983)	-14.60%		8,660,594
Operating Expenses		7,314,043		8,249,704	(935,661)	-11.34%		7,341,593
Non-Operating Expenses		303,278		167,060	136,218	81.54%		175,011
Total Expenses		7,617,321		8,416,764	 (799,443)	-9.50%		7,516,604
Capital Contributions		-		-	 -	0.00%		-
Change in Net Position		1,141,570		1,839,110	(697,540)	-37.93%		1,143,990
Change in Accounting Principle		595,905		-	595,905	100.00%		-
Net Position, Beginning		31,640,622		29,801,512	 1,839,110	6.17%		28,657,522
Net Position, Ending	\$	33,378,097	\$	31,640,622	\$ 1,737,475	5.49%	\$	29,801,512

The statement of revenues, expenses and changes of net position shows how the District's net position changed during the fiscal years. Net position increased by \$1,737,475 and \$1,839,110 for the fiscal years ended June 30, 2022 and 2021, respectively.

A closer examination of the sources of changes in net position reveals the following:

- In 2022, the District's operating revenues decreased 19%, or \$1,672,789, primarily from a \$1,253,800 decrease in water consumption sales and a \$363,602 decrease in service charges. These decreases were a direct result of COVID-19 and extremely wet weather.
- In 2021, the District's operating revenues increased 22%, or \$1,578,175 primarily from a \$939,259 increase in water consumption sales.
- In 2022, the District's operating expenses decreased by \$935,661 primarily due to a decrease in water purchases of \$531,736 and a decrease in transmission and distribution expenses of \$368,272. Consumption and transmission decreased substantially because of COVID-19, since less people were working from home as the pandemic ended, and wet weather.

MANAGEMENT'S DISCUSSION AND ANALSYS

JUNE 30, 2022

• In 2021, the District's operating expenses increased by \$908,111 primarily due to an increase in water purchases of \$298,923 and an increase in transmission and distribution expenses of \$328,438.

Capital Asset Administration

At the end of fiscal year 2022 and 2021, the District's investment in capital assets amounted to \$32,626,713 and \$31,163,968 (net of accumulated depreciation), respectively. This investment in capital assets includes land, transmission and distribution systems, tanks, pumps, buildings, equipment, vehicles and construction-in-process, etc. Major capital assets additions during the year include improvements to portions the District's transmission and distribution system. The District also reported a right of use asset as required by GASB 87 of \$547,794, which is reported separately and not included in the following table.

	Ju	ne 30, 2022	Ju	ne 30, 2021	In	mount crease ecrease)	Percent Increase (Decrease)	Jun	e 30, 2020

Less Accumulated Depreciation		(18,598,158)		(17,932,552)		665,606	0.00%	(16,937,302)
Capital Assets, Net	\$	32,626,713	\$	31,163,968	\$	1,462,745	4.69%	\$	28,138,160

Long-Term Debt

During fiscal year 2021, the District issued \$8,103,000 in 2021 Installment Bonds. As of June 30, 2022 and 2021, the outstanding principal balance was \$6,960,000, and \$7,440,000, respectively. The bond proceeds were used to improve and build infrastructure needed to service citizens and manage capacity increases. The district also reported a lease liability of \$878,084 related to GASB 87, leases from the use of facilities.

Factors Bearing on the District's Future

The COVID-19 pandemic appeared to have lapsed into an endemic, easing the effects on global markets, supply chains, businesses, and communities. The combination of people beginning to travel back to work and extremely wet weather, impacted various parts of the District's 2022 operations and financial results, including, but not limited to, loss of revenues and decreased water and transmission costs. Management believes the District is taking appropriate actions in relation to revenue declines and continues to budget appropriately based on local and global economic factors and concerns.

Although California had record breaking rains in fiscal year 2022, the District continues to closely monitor the potential impact of water shortages and droughts in California and is working diligently to reduce water consumption in an effort to conserve water for future droughts.

MANAGEMENT'S DISCUSSION AND ANALSYS

JUNE 30, 2022

Requests for Information

This financial report is designed to provide the District's funding sources, customers, stakeholders and other interested parties with an overview of the District's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the District's General Manager at 26375 Fremont Road, Los Altos Hills, CA 94022.

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

The Purissima Hills Water District (District) was formed in 1955 and provides service to twothirds of the Town of Los Altos Hills, a rural community adjacent to the cities of Palo Alto and Los Altos, and unincorporated areas in Santa Clara County to the south. The District serves predominantly single-family homes on minimum one-acre lots. The District's largest customer is Foothill College. The District is governed by a five-member Board of Directors who each serves four year terms.

Purissima Hills Water District receives 100% of its water supply from San Francisco Public Utilities Commission (SFPUC) via two turnouts from the Hetch Hetchy pipeline along the Foothill Expressway on the northern edge of the District. The SFPUC water supply is gravity-fed through 18" transmission mains to two pump stations that pump to tanks distributed throughout the District. The distribution system consists of 4 pressure zones, 11 tanks, 5 pumping stations, 15 pumps, and 80 miles of pipe. All services within the District are pressurized or gravity fed from tanks in the respective pressure zones. The tanks have a total capacity of 10 million gallons.

B. BASIS OF ACCOUNTING

The District is accounted for as an enterprise fund and its financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when liabilities are incurred, regardless of the timing of related cash flows.

Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues of the District include water service charges. Operating expenses of the District include employee costs, water purchases, maintenance, utilities, and other administrative costs. All revenues and expenses not meeting this definition are reported as non-operating revenue and expense.

C. CASH AND CASH EQUIVALENTS

The District considers cash on hand, cash in banks and the Local Agency Investment Fund to be cash and cash equivalents.

D. ACCOUNTS RECEIVABLE

The District extends credit to customers in the normal course of operations. When management deems customer accounts uncollectible, the District uses the allowance method for the reservation and write-off of those accounts.

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

E. MATERIALS AND SUPPLIES INVENTORY

Materials and supplies inventory consists primarily of water meters, pipe and pipefittings for construction and repair to the District's water transmission and distribution system. Inventory is valued at cost using a weighted average method. Inventory items are charged to expense at the time that individual items are withdrawn from inventory or consumed.

F. UNEARNED REVENUE

Unearned revenue represents money collected in advance for customer water consumption sales.

G. COMPENSATED ABSENCES

The District's policy is to permit employees to accumulate earned vacation up to a total of 240 hours with amounts exceeding the limit being paid out as part of the employee's regular compensation. Upon termination of employment, employees are paid all unused vacation and forfeit any unused sick time.

H. RESTRICTED NET POSITION

Restricted net position represents storage facility charges collected and legally restricted for construction of transportation and storage facilities.

I. CAPITAL ASSETS

Capital assets are recorded at cost, or if contributed, at estimated value at time of acquisition. Depreciation is recognized on buildings, furniture, fixtures, equipment and subsurface lines by the straight-line method over their estimated useful lives. Estimated useful lives are as follows:

Transmission and distribution mains	15 - 50 years
Buildings	15 - 50 years
Transportation and other equipment	5 - 10 years
Computer and office equipment	3 years

District policy is to capitalize all assets, which cost \$5,000 or more, and to charge to current operations all additions under that cost limit. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives are also expensed in the current period.

J. LEASE LIABILITY

A lease is defined as a contract that coveys control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. The long-term liability and corresponding asset for financial leases are recorded in the financial statements. Amortization of related assets using the straight-line method over the life of the contract.

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

K. LEASE RECEIVABLE

A lease is defined as a contract that coveys control of the right to use the District's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. The long-term asset and corresponding deferred inflows of resources for financial leases are recorded in the financial statements. Amortization of related deferred inflows using the effective rate over the life of the contract.

L. REVENUES/CAPACITY CHARGES

Customer water meters are read on a monthly basis. Bills are rendered and income is recognized in the period in which meters are read. The District does not accrue income for water distributed but not yet billed at the end of the year.

California state law requires water districts to report capacity charges collected and spent separately from operating revenue and expense and any fees unspent at year-end are shown in a separate equity fund. No capacity charges were collected by the District for the June 30, 2022 and 2021 fiscal year.

M. PROPERTY TAXES

The District's property taxes are levied each calendar year on all taxable real property located in the District. Property taxes are recorded on an accrual basis of accounting. The County Assessor is responsible for assessment of all taxable real property within Santa Clara County. Reassessment is on a three-year schedule established by the Assessor. The County Clerk computes the annual tax for each parcel of real property and prepares tax books used by the County Collector as the basis for issuing tax bills to all taxpayers in the County. Property taxes are collected by the County Collector and are submitted to the County Treasurer, who remits to each unit its respective share of the collections. Taxes levied in one year become due and payable in two installments during the following year generally on March 1st and November 1st. The first installment is based on the current levy, assessment, equalization, and certificate to limit levy, if any and any changes from the prior year will be reflected in the second installment bill. The levy becomes an enforceable lien against the property as of March 1st following the levy year.

N. INCOME TAXES

The District is a governmental entity and as such its income is exempt from taxation under Section 115(1) of the Internal Revenue Code and Section 23701d of the California and Taxation Code. Accordingly, no provision for federal or state income taxes has been made in the accompanying financial statements.

O. PENSIONS

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Purissima Hills Water District's California Public Employees' Retirement System (CalPERS)

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. DEFERRED INFLOWS AND OUTFLOWS OF RESOURCES

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time.

Q. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

R. CHANGE IN ACCOUNTING PRINCIPLE

Effective July 1, 2021, the District adopted GASB Statement No. 87, Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are a financing of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The following shows the beginning balance adjustments due to the implantation of GASB 87:

Right of use asset	\$ 995,991
Accumulated amortization	(423,295)
Lease liability	(893,645)
Lease receivable	2,074,375
Deferred inflows	 (1,157,521)
Change in accounting principle	\$ 595,905

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

2. CASH AND INVESTMENTS

Cash and cash equivalents as of June 30, 2022 and 2021 consisted of the following:

	 2022	 2021
Cash on hand	\$ 2,332	\$ 1,033
Cash in bank	2,129,404	1,567,747
Local Agency Investment Fund	 4,465,386	 6,108,321
Total Cash and Cash Equivalents	\$ 6,597,122	\$ 7,677,101

The carrying amount of the District's cash is covered by federal depository insurance up to \$250,000. Should deposits exceed the insured limits, the balance is covered by collateral held by the bank in accordance with California law requiring the depository bank to hold collateral equal to 110% of the excess government funds on deposit.

Local Agency Investment Fund

The District is a voluntary participant in Local Agency Investment Fund (LAIF), which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California and the Pooled Money Investment Board. The State Treasurer's Office pools these funds with those of other governmental agencies in the State and invests the cash. The fair value of the District's investment in this pool, which approximates cost, is reported in the accompanying financial statements based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Funds are accessible and transferable to the master account with twenty-four hour notice. The Pooled Money Investment Board has established policies, goals, and objectives to make certain that their goal of safety, liquidity, and yield are not jeopardized. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset backed securities, and floating rate securities issued by Federal Agencies, government-sponsored enterprises and corporations. The monies held in the LAIF are not subject to categorization by risk category. It is also not rated as to credit risk by a nationally recognized statistical rating organization. LAIF is administered by the State Treasurer and audited annually by the Pooled Money Investment Board and the State Controller's Office. Copies of this audit may be obtained from the State Treasurer's Office: 915 Capitol Mall, Sacramento, California 95814.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The monies held in the LAIF investment pool are not subject to categorization by risk category. It is also not rated as to credit risk by a nationally recognized statistical rating organization.

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

2. CASH AND INVESTMENTS (Continued)

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

3. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2022 is as follows:

	Balance July 1, 2021	Additions and transfers	Deletions and tranfers	Balance June 30, 2022

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

4. LONG-TERM LIABILITIES (Continued)

2020 Installment Bonds

The District issued debt in the form of an installment sale agreement to issue \$8,103,000 of bonds in agreement with Zions Bank effective January 1, 2020 and ending December 30, 2034. Principal and interest payments vary and are due quarterly beginning March 30, 2020 with an interest rate of 2.16%. As of June 30, 2022, the outstanding principal balance was \$7,440,000 and \$7,910,000 as of June 30, 2020. Future minimum lease payments are as follows:

Fiscal Year					
Ending June 30,	Principal	Interest		Total	
2023	\$ 491,000	\$	146,378	\$	637,378
2024	501,000		135,691		636,691
2025	512,000		124,778		636,778
2026	523,000		113,632		636,632
2027	535,000		102,238		637,238
2028 - 2032	2,852,000		331,452		3,183,452
2033 - 2037	1,546,000		46,294		1,592,294
Total Debt Service	\$ 6,960,000	\$	1,000,463	\$	7,960,463

5. EMPLOYEE RETIREMENT PLAN

A. Plan Description

All qualified permanent and probationary employees are eligible to participate in the Purissima Hills Water District's cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plan is established by State statute and Purissima Hills Water District resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the plan are applied as specified by the Public Employees' Retirement Law.

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

A. Plan Description (Continued)

The Plans' provisions and benefits in effect at June 30, 2022, are summarized as follows:

	Prior to	On or after
Hire date	January 1, 2013	January 1, 2013
Benefit formula	2% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50 - 55	52 - 67
Monthly benefits, as a % of eligible compensation	2.0% to 2.5%	1.0% to 2.5%
Required employee contribution rates	7.000%	7.250%
Required employer contribution rates	9.300%	7.730%

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Purissima Hills Water District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the years ended June 30, 2022 and 2021, the contributions recognized as part of pension expense for the Plan were \$131,038 and \$114,764, respectively.

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2022 and 2021, the Purissima Hills Water District reported net pension liabilities for its proportionate share of the net pension liability of \$155,175 and \$692,678, respectively.

Purissima Hills Water District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2021, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. Purissima Hills Water District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan as of the June 30, 2020 and June 30, 2021 measurement dates was as follows:

Proportion - June 30, 2021	0.01642%
Proportion - June 30, 2022	0.00817%
Change - Increase (Decrease)	-0.00825%

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2022 and 2021, the District recognized a pension credit of \$261,909 and a pension expense of \$189,427, respectively. The District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

June 30, 2022

	Ou	eferred atflows of esources	In	eferred flows of sources
Pension contributions subsequent to measurement date	\$	131,038	\$	-
Difference between expected and actual experience	Ψ	17,401	Ψ	-
Difference between employer's contributions and proportionate				
share of contributions		-		81,260
Change in employer's proportion		93,967		-
Changes in assumptions		-		-
Differences between projected and actual investment earnings		-		135,459
Total	\$	242,406	\$	216,719

\$131,038 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Fiscal Year Ending	 l Deferred ow/(Inflow)
June 30	Resources
2023	\$ (21,459)
2024	(20,343)
2025	(26,114)
2026	(37,434)
2027	-
Thereafter	 -
	\$ (105,350)

\$114,764 reported as deferred outflows of resources related to contributions subsequent to the measurement date are recognized as a reduction of the net pension liability in the current year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Fiscal Year Ending June 30	Total Deferred Outflow/(Inflow) of Resources				
2022	\$	14,015			
2023		16,192			
2024		15,404			
2025		9,869			
2026		-			
Thereafter		-			
	\$	55,480			

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions – The total pension liabilities in the June 30, 2020 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2020
Measurement Date	June 30, 2021
Actuarial Cost Method	Entry-Age Normal Cost
Actuarial Assumptions	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	2.75%
Projected Salary Increase	(1)
Investment Rate of Return	7% (2)
Mortality	(3)

- (1) Varies by entry age and service
- (2) Net of pension plan investment expenses, including inflation
- (3) Derived using CalPERS' membership data for all funds

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2020 valuation were based on the CalPERS Experience Study for the period from 1997 to 2015. Further details of the Experience Study can be found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a buildingblock approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Asset Class	Current Strategic Allocation (a)	Real Return Years 1 - 10 (b)	Real Return Years 11+ (c)
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Assets	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
Total	100.0%		

The expected real rates of return by asset class are as followed:

- (a) In the System's ACFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.
- (b) An expected inflation of 2.0% used for this period.
- (c) An expected inflation of 2.92% used for this period.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount **Rate** – The following presents the District's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Disco	ount Rate - 1%	Curr	ent Discount	Discount Rate + 1%				
		(6.15%)		te (7.15%)	(8.15%)				
Plan's Net Pension Liability	\$	769,350	\$	155,175	\$	(352,555)			

Pension Plan Fiduciary Net Position – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

C. Payable to the Pension Plan

The District had no outstanding amount of contributions to the pension plan required for the year ended June 30, 2022.

6. JOINTLY GOVERNED ORGANIZATIONS

The District is a member of two jointly governed organizations. The District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (ACWA JPIA) which provides workers compensation, liability, and property insurance. The District is also a member of Bay Area Water Supply & Conservation Agency (BAWSCA) who represent member negotiations with the San Francisco Public Utilities Commission (SFPUC).

ACWA JPIA and BAWSCA are governed by a Board consisting of representatives from member agencies. The Board controls the operations, including selection of management and approval of operating budgets, independent of any influence by the member agencies beyond their representation on the Board. Each member agency pays a contribution or assessment commensurate with the level of coverage and services requested and shares surpluses and deficits proportionate to their participation in the joint powers authority. Full financial statements are available separately from ACWA JPIA and BAWSCA. The latest condensed information for ACWA JPIA and BAWSCA for the years ended September 30th and June 30th, respectively, are as follows:

	CWA JPIA ember 30, 2022_	BAWSCA une 30, 2022

Change in Net Position	\$ (37,026,611)	\$ 1,671,529

7. LEASE RECEIVABLE

The District contracted with five (5) different companies to lease land for communication towers on District-owned properties. The agreements are for multiple years and require monthly payments based on the contracted amounts.

The following summarizes the District's lease receivables as of June 30, 2022:

8. LEASE LIABILITY

The District entered into a forty (40) year lease in 2005 for the use of the District's Operations Center. The lease has an interest rate of 2.16% and will end in 2045. The right-of-use assets obtained in exchange for these leases was \$547,794 and \$0 as of June 30, 2022 and 2021, respectively.

The following summarizes the District's lease payments as of June 30, 2022:

Year Ending	Principal			Interest

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2022 AND 2021

9. DEFERRED COMPENSATION

The District has established a deferred compensation plan in accordance with Internal Revenue Code Section 457, whereby employees may elect to defer portions of their compensation in a self-directed investment plan for retirement. Plan assets are invested in each individual's name with a deferred compensation plan provider. Distributions are made upon the participant's termination, retirement, death or total disability, and in a manner in accordance with the election made by the participant. All employees are eligible for plan participation.

The District believes it has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. The District has formally established a trust in accordance with Internal Revenue Code Section 457(g) to provide protection from the claims of the employer's general creditors. Accordingly deferred compensation assets placed in the trust are not reflected in these financial statements.

10. COMMITMENTS

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

11. SUBSEQUENT EVENTS

District management has evaluated its June 30, 2022 financial statements for subsequent events through July 31, 2023, the date the financial statements were available to be issued. Management is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

⁽¹⁾ Historical information is required only for measurement periods for which GASB 68 is applicable.

(2) contribution). However, some employers may choose to make additional contributions towards their side fund or their unfunded liability. Employer contributions for such plans exceed the actuarially determined contributions. CalPERS has determined that employer obligations referred to as "side funds" do not conform to the circumstances described in paragraph 120 of GASB 68, therefore are not considered separately financed specific liabilities.

⁽³⁾ Covered payroll represented above is based on pensionable earnings provided by the employer.

⁽⁴⁾ Payroll from prior year was assumed to increase by the 3.00 percent payroll growth assumption.

OTHER INDEPENDENT AUDITOR'S REPORT

James Marta & Company LLP

Certified Public Accountants

Accounting, Auditing, Consulting, and Tax

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

Board of Directors Purissima Hills Water District Los Altos Hills, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Purissima Hills Water District (the "District"), as of and for the years ended June 30, 2022 and 2021 and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated July 31, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financials statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
