

PRINCIPAL FEATURES

Teppanyaki Cooking

Timer

Residual heat sensor

Flush-top installation

Touch Control

Booster

Over-top installation

DESCRIPTION

This hob features a 1 mm thick edge. This way, it can be flush-mounted or semi-flush-mounted on the kitchen's countertop. With the induction Teppanyaki plate, heat is distributed evenly between the two areas of the plate, cooking food naturally without seasonings. The hob includes an end-of-cooking beep, a touch control lock and a residual heat indicator (H).

FEATURES

- Touch control
- Stainless steel finish
- 2 independent cooking zones
- Time for each zone
- Digital power level indicator
- Stainless steel plate (10mm)
- Groove for collecting cooking residues
