

FTS-400 Floor-to-Stand For Home and Care Centers

The FTS-400 was developed for mobility challenged individuals and those who care for them!

Description

The FTS-400 is a lift & transfer tool that enables quick and safe fall recovery while eliminating manual lifting.

It can raise individuals up to 180 kg. to a seated or standing position (76cm.), and allows for easy transfers to and from a wheelchair, bed, commode, exercise equipment or even the floor.

The standing lift function allows users to be safely raised to access a high bed.

Can be used independently or with the assistance of a caregiver.

CE MD

Assisted Operation

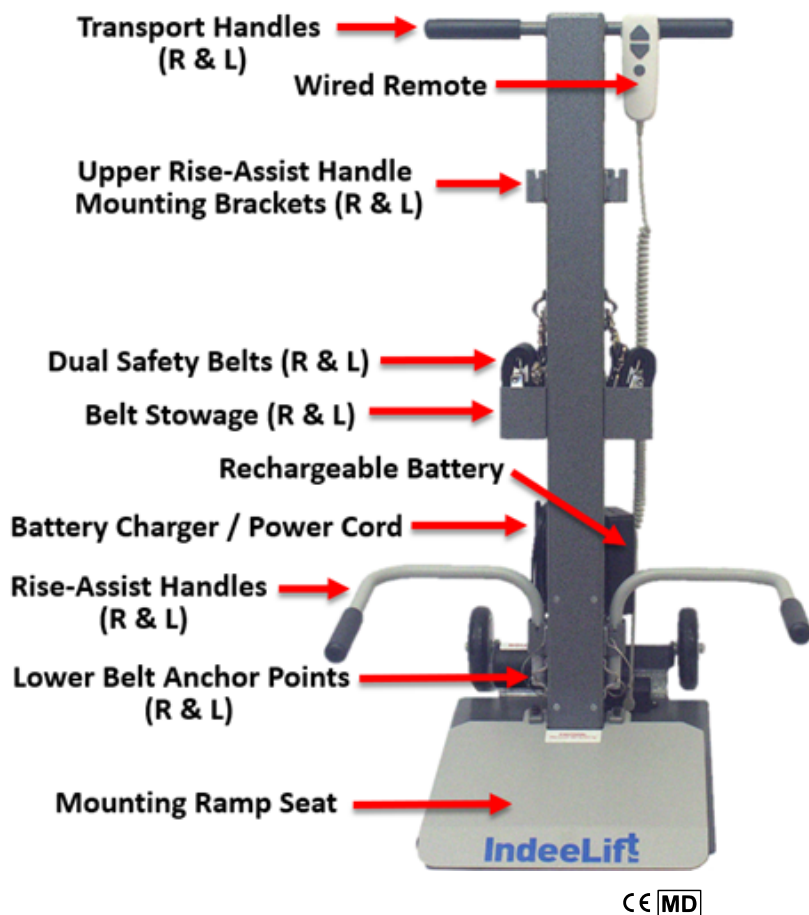

Self Operation

Summary of Features
