

PPU For Home & Care Centers

PPU IndeeLift's solution for people with mobility problems

The "People Picker Upper" (PPU) safely lifts a fallen person from the floor, eliminating the need for a emergency calls while transforming a stressful fall into a non-event.

It can raise individuals up to 150 kg to a seated position allowing the user to stand up or transfer to and/or from a wheelchair, bed, commode, exercise equipment or even the floor.

Can be self-operated or with the assistance of a caregiver.

Restores dignity and independence.

Self Operation

In the home, individuals can be lifted from the floor after a fall or when getting back up from exercise, therapy, gardening or playing with a family pet.

In Care Centers (assisted living, senior housing, senior centers, hospice and mobile caregivers), allows caregivers to easily & safely recover fallen residents.

Assisted Operation

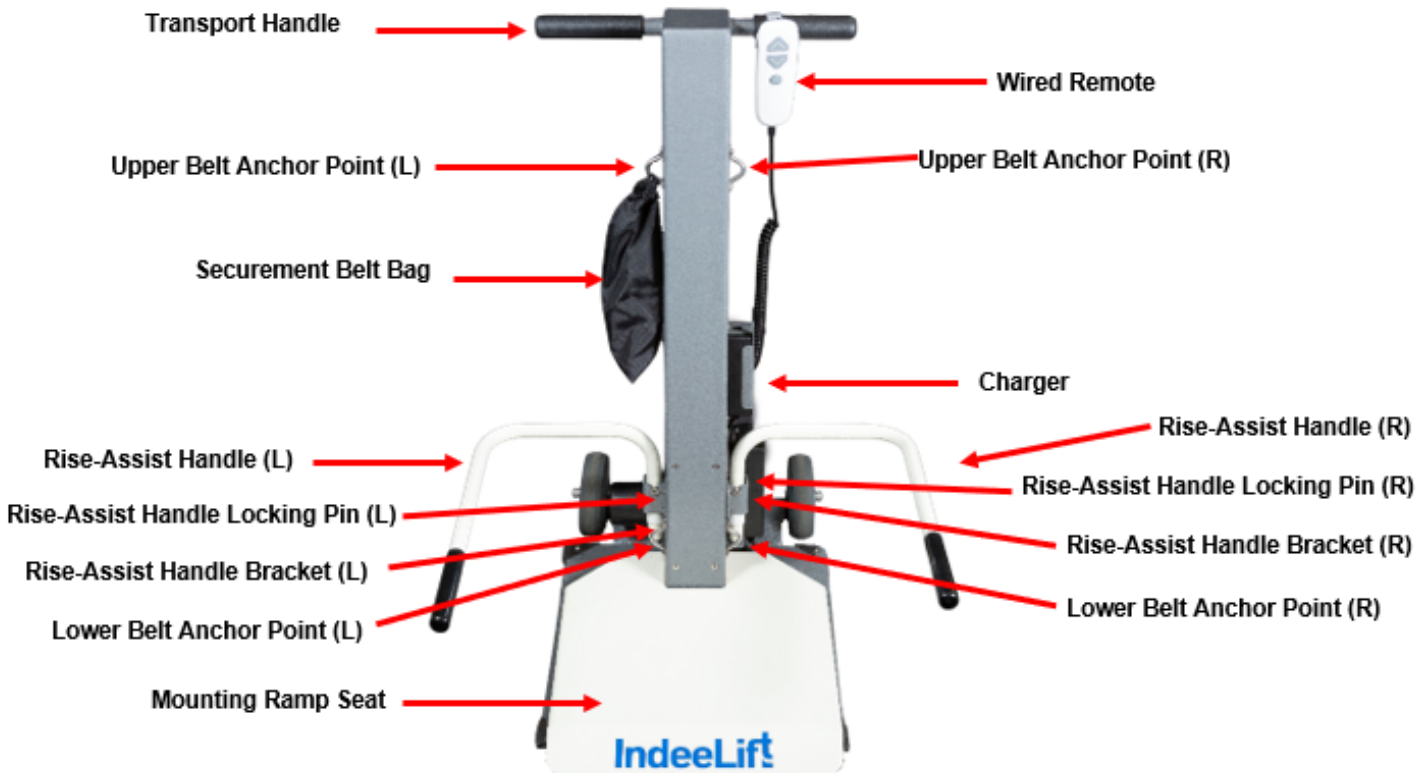

Seated Transfers
