

# PPU-S For Home and Care Centers

## Consumer Model

The "People Picker Upper" standing model (PPU-S) safely lifts a fallen person from the floor, eliminating the need for a call to emergency services while transforming a stressful fall into a non-event.

It can raise individuals up to 180 kg to a seated or standing position, and allows for easy transfers to and from a wheelchair, bed, commode, exercise equipment or even the floor.

The standing lift function allows users to be safely raised to access a high bed or an overhead cabinet - a step stool without the step!

Can be self-operated or with the assistance of a caregiver.

Restores dignity and independence.

## Assisted Operation

## Self Operation

# Summary of Features

- Beveled seat-front for easy slide on transfer surface
- Wired remote for convenient operation
- Swinging/Removable Rise-Assist Handles for easy secure transfer
- Dual safety belts for added safety
- Powder coated for easy cleaning
