Aim of the Series

The purpose of this serie is to popularize the Eventing sport in Scandinavian and Baltic countries while giving our riders more possibilities aswell as motivation to compete at CCI2* level, giving more experiences for growing up to CCI3* and higher levels.

Competition format:

Nordic Eventing Challenge is a team competition on CCI2*-S level. Team consists a total of 3 - 5 riders. Every team has their own name. All team members should represent the same nationality and every nation could register several teams. The horses in different legs of the tournament can vary. Teams need to be registred before 1st of May 2022 by e-mail info@nordiceventingchallenge.com Information about all teams will be published on tournaments official webpage www.nordiceventingchallenge.com

In every leg 3 or 4 team members will take part and three best results counts for team result. Team needs to inform the show-office about competing team members minimum one hour before the first dressage test. If any team member rides more than one horse, the show office needs to be informed which horse is counting for team results and that horse needs to start as first.

The team results are calculated by adding three individual results together. Eliminated or retired result gives 1000 penalty points. In equality of results the better XC result of three members will give preference.

Scoring system:

Team results will be calculated in every leg and for general placing the table of points below will be used. In equality of points after three legs the team with better individual placings through all legs will get preference: more 1st places, in equality more 2nd places ect.
