The Group

CHORDIA'S

CHORDIA'S is a Jaipur based renowned family owned real estate company. Two decades since its inception, it has created many remarkable landmarks across the city. The group owes this success to its competitive price, excellent service and strong ethics. CHORDIA'S pioneered in developing Jaipur's first township with Chordia City. The company's founder Mr. Vinay Chordia, started his professional career as a highly skilled jeweller and then forayed into the world of real estate in the mid 90's. It's his courage, hard work and dedication that has built a strong reputation and taken the company to greater heights. Together with his sons the company is all set to create countless milestones, like never before.

JAIPUR CITY

is unusual among pre-modern Indian cities in the regularity of its streets, and the division of the city

The urban quarters are further divided by networks of gridded streets. Five quarters wrap around the east, south, and west sides of a central palace quarter, with a sixth quarter immediately to the east.

The Palace quarter encloses the Hawa Mahal palace complex, formal gardens, and a small lake.

Nahargarh Fort, which was the residence of the King Sawai Jai Singh II, crowns the hill in the northwest corner of the old city. The observatory, Jantar Mantar, is one of the World Heritage Sites.

Keeping up with the tradition Chordia Group developed PRIME VILLE a very well planed, gated mini township with wide sector roads, all premium features and amenities, in a clean and green surrounding, after the very successful Phase-I, we now launch PRIME VILLE CLASSIC, an extension of phase-I.
