'Account': A domain or company that you referred (name@yourbiz.com). Each domain that you refer counts as one account.

'User': The individual users within each Google Workspace account (i.e. associated with the same domain). For example, name1@yourbiz.com is one user, and name2@yourbiz.com is the second user.

**200 users are counted based on the date that referrals become eligible for commission payment. (For example, if a referral is made in November of 2020 for one Google Workspace account with five users, and that referred Google Workspace account becomes eligible for commission in February of 2021, then five users are counted towards the 2021 limit.)*
