When you work in the cold, you need to know if your gear will keep you warm enough. Many of our products, from jackets to boots, have Comfort Ratings to help you figure out what would work best in your environment. We test our products in a range of conditions to find the Comfort Ratings, so you know what you can expect for warmth.

PLEASE REMEMBER THAT COMFORT RATINGS ARE ONLY GUIDELINES.

What you do in the cold has a huge impact on how warm you are. The more active you are, the less insulation you need because you generate your own warmth. If you aren't as active, the temps might feel colder than they actually are. Each person's unique circulation, metabolism and physical characteristics are also a factor, so bear that in mind when selecting products based on Comfort Rating.

THROUGHOUT THE CATALOG, YOU WILL NOTICE ICONS NEXT TO PRODUCTS. THESE ICONS INDICATE DIFFERENT FEATURES FOR OUR PRODUCTS, FROM ANSI COMPLIANCE TO USING RECYCLED MATERIALS. THE LIST BELOW DETAILS WHAT EACH ICON MEANS.

	ANSI Certified Meets ANSI standards for safety. See page 78 for more info.		Performance-Flex Expanding, ribbed fabric keeps you flexible on the job, extending your range of motion.		UV Protection These products are treated to block damaging UV rays.
	Antimicrobial Prevents bacteria from creating a stink.		Max Comfort Our VitaComfort® system absorbs impact and wicks away moisture to keep you on your feet. See page 121 for more info.		Ultra Slip Resistant The highest slip-resistant rating.
	Breathable Lets sweat evaporate so you stay dry and comfortable.		Moisture-Wicking Wicks moisture away from skin to let it evaporate so you stay dry and comfortable.		Waterproof These products are 100% waterproof.
	Cut Resistant Tested and certified to reduce injury from sharp objects. See page 102 for more info.		Teflon® Coated Teflon® treatment keeps dirt and grime from staining your gear.		Water-Repellent Snow, light rain and condensation rolls off the treated outershell of these products.
	Dual-Layer Added warmth for gloves with an extra layer of protection.		Puncture Resistant Puncture-resistant plate along the sole.		Wind-Tight Outershell keeps the wind out and the warmth in.
	Lightweight Won't weigh you down while you're working.		Eco Friendly These products are crafted from recycled or sustainable materials.		CSA Tested and certified CSA safety compliance.
	BOA® Fit System Get a snug, precise fit on footwear that lasts all day. See page 122 for more info.		Reversible These products can be reversed, to extend wear or to offer a different look.		AirBlaze® Features our lightweight, warm insulation made from sustainable materials.
	Grip Assist Don't drop the ball (or box) with added Grip Assist silicone dots.		4-Way Stretch Features materials that stretch with you for added performance and comfort.		CE Meets European Safety Standard requirements.
	Touchscreen Compatible for use with touchscreen devices.		Cold Protection Shield Tested and certified for compliance to European cold-protective equipment standards.		Mechanical Risks Tested and certified for compliance to European standards for mechanical risks.

QUALITY STATEMENT

Since 1954, RefrigiWear® has been committed to Quality, Performance and Reliability. Our founder, Myron Breakstone, demanded a standard of excellence that will never be compromised. We understand that the customer defines quality. To consistently exceed customer expectations, we challenge our dedicated employees and loyal suppliers to continuous improvement of every product, process and service. We promise to aggressively protect the reputation of RefrigiWear® as the industry leader in quality.

Learn how our multi-step process ensures quality won't be compromised: Visit our website to learn more about our multi-step quality assurance process.

54 GOLD WARM WORKERS WORK WONDERS

Your team is the best there is. So give them the best to get the job done. We've been keeping teams warm since 1954, so we know what it means to be the Gold Standard. With AirBlaze® insulation to keep garments lightweight but warm, Performance-Flex to improve movement and designs inspired by our original Iron-Tuff® freezer suits, 54 Gold is the right gear for freezing jobs.

54 GOLD JACKET | PAGE 19

WARMPLUS GRAPHENE LINING

How can a garment so lightweight keep you warm down to -54°F? Answer: the combination of AirBlaze® insulation and our new WarmPlus graphene lining. Printed in a stylish gold honeycomb design, the WarmPlus lining absorbs your body heat as it escapes and transfers it back to you, enhancing protection against the cold.

AIRBLAZE® INSULATION

AirBlaze® keeps you warm and lets you work without the weight of a heavy, bulky garment.

QUIET OUTERSHELL

Don't get distracted by noisy fabric. The soft outershell is quiet.

54 GOLD JACKET | PAGE 19

REINFORCED STRESS POINTS

Brass rivets reinforce stress points to make these garments extra durable.

CLASSIC DESIGN, MODERN FEATURES

We took inspiration from the Iron-Tuff® freezer suits that made us famous and created gear ready for work in the 21st century. 54 Gold helps you perform your best every day with updated features that add warmth, mobility, comfort and style.

54 GOLD HOODED UTILITY JACKET

IRON-TUFF®
WARM | TOUGH | ICONIC

There's only one original freezer suit and RefrigiWear® invented it. From the Alaska Pipeline to every step of getting food to America's tables, Iron-Tuff® has been there protecting workers since 1954. Our iconic line of garments provides protection down to -50°F, as well as durability and reliability that you can count on for years to come. Extreme durability, legendary warmth – it's the original way to Master the Cold®.

IRON-TUFF® COVERALLS | PAGE 27

HEEL REINFORCEMENT PATCHES

Iron-Tuff® Bib Overalls and Coveralls have added protection at the heel to prevent fraying and tearing.

IRON-TUFF® HIKER | PAGE 30

**OVERTIME
 COMING UP?
 BRING IT!**

The VitaComfort® Bounce midsole in the Iron-Tuff® Hiker helps you keep a spring in your step, even after a long shift. The advanced material absorbs the shock from your step, cushioning your foot as it makes contact with the floor.

IRON-TUFF® COVERALLS | PAGE 27

**BRASS
 RIVETS AT
 HIGH-STRESS
 POINTS**

Brass rivets reinforce stress points to make these garments extra durable.

WOMEN'S IRON-TUFF® COAT | PAGE 25

REFRIGIFILL™

Stay warm and comfortable with RefrigiFill™, our proprietary blend of insulation that has been perfected over our 67 years of insulating garments.

IRON-TUFF® INSULATED GLOVE | PAGE 30

HEAVY-DUTY BRASS ZIPPERS

No frustrating fights to get out of this gear. Our brass zippers are easy to use and durable.

BOUND SEAMS TO PREVENT DRAFTS & INCREASE DURABILITY

Bound seams don't just seal out the cold – they help Iron-Tuff® handle whatever you throw at it.

ERGOFORCE®

Don't run for cover in cold, wet, tough conditions. ErgoForce® is all the protection you need. These heavy-duty, waterproof garments can take a beating without falling apart. Rated to -30°F, they can handle days when the wind chill alone is in the double digits below zero. When you're tackling the roughest, muddiest jobs, count on ErgoForce® to keep you warm, comfortable and protected.

SOFTSHELL

You aren't going to find toughness like this anywhere else. Get a modern athletic style and industrial-strength protection with the RefrigiWear® Softshell Collection. Softshell is more flexible and less bulky than other materials – so you can get the job done in comfort. Our softshell garments offer protection that works as hard as you do, in modern designs with plenty of functional features.

HIVIS SOFTSHELL

There's more to safety than just staying warm. Our high-visibility (HiVis) and enhanced-visibility softshell garments are just as tough, flexible and warm as our regular softshell, but they offer added safety in dim warehouses or on busy docks. With HiVis colors and reflective tape, these garments won't just protect you from the cold – they'll also keep you safe from the hazards of the job.

CHILLSHIELD®

Above-zero freezing temps are still dang cold. You might not be working in negative temps, but the cold will still take a toll if you aren't protected. Built with our lightweight AirBlaze® insulation, ChillShield® protects in temps from 10°F up to 40°F, so you can keep out the cold and get to work.

CHILLSHIELD® BIB OVERALLS

CHILLSHIELD® BIB OVERALLS

ABRASION-RESISTANT PANELS

Tough days won't wear this gear down. With added abrasion-resistant panels for high contact areas, ChillShield® gear won't snag or tear just because of a rough day at work. Long shifts don't make you unravel. Get gear that won't either.

AIRBLAZE® INSULATION

All the warmth, but 40% lighter. AirBlaze® lets you work without weighing you down.

7650 CHILLSHIELD® BIB OVERALLS

- Over 100g AirBlaze® polyester insulation
- 100% Polyester 150 denier twill outershell
- 100% Polyester taffeta lining
- Water-repellent, wind-tight finish
- Front zipper closure with snap-closure storm flap
- 2 Hand-warmer pockets
- Nickel rivets reinforce stress points
- Curved knee for better movement
- Above-knee leg zippers
- Abrasion-resistant panels on pockets, knees and inner leg
- Hem & heel reinforcement patches
- Reflective piping for added visibility
- Better fit and movement thanks to flexible crotch gusset
- Adjustable straps for best fit

7650R S-5XL

Gray

CHILLSHIELD® JACKET
CHILLSHIELD® PANTS

NOT JUST LIGHTWEIGHT

ChillShield® is thin, so you aren't hampered by bulk. And, it still keeps you warm down to 10°F.

SURPRISINGLY WARM

AirBlaze® insulation in ChillShield® gear helps make you feel warmer with less bulk and weight. Plus, a durable yet softer outershell keeps the fabric from making a lot of noise as you move about.

8650
CHILLSHIELD® JACKET

- Over 100g AirBlaze® polyester insulation
- 100% Polyester 150 denier twill outershell
- Water-repellent, wind-tight finish
- Zipper with snap-close storm flap

ENDURAQUILT™

Quilted jackets are a popular style, but many aren't ideal for work because of their bulk and thin outershell. Not so with our EnduraQuilt™ products. More durable than standard puffer jackets, EnduraQuilt™ jackets look good AND work hard.

HYBRID QUILTED JACKET | PAGE 70
WATCH CAP WITH LOGO | PAGE 135

DOUBLE LAYER HEADBAND | PAGE 138

DURABLE WARMTH, LASTING STYLE

There's no need to compromise comfort just to get the job done. Thanks to a strong outershell quilted over industrial-strength insulation, EnduraQuilt™ is thinner and tougher than the average puffer, so you can handle the toughest jobs.

ANSI STANDARDS

The American National Standards Institute (ANSI) sets different safety standards that are enforced by OSHA. Different jobs require different minimum standards to be safe.

TYPES

There are three types of ANSI HiVis gear:

- TYPE O** – OFF-ROAD
- TYPE R** – ROADWAY
- TYPE P** – PUBLIC SAFETY

Each type offers specific features to meet the safety concerns of different jobs.

CLASSES

There are four classes of ANSI gear:

- CLASS 1** **CLASS 2** **CLASS 3**
- CLASS E (SUPPLEMENTAL)**

Each Class increases the amount of HiVis material and reflective tape on the garment. Class E are pants or bib overalls that can be added to an outfit to raise the Class rating.

CSA CERTIFIED

To be CSA certified, the garment needs to have an X shape of reflective tape on the back to indicate which direction the wearer is facing.

0399

IRON-TUFF® VEST

- 11.25 oz. RefrigiFill™ polyester insulation
- Tear and abrasion-resistant 300 denier polyester outershell
- Water-repellent, wind-tight finish

SWEATSHIRTS THAT WORK HARD

Our sweatshirts come in different styles and materials, some up to 3 layers, so you have choices for your job and temperature range.

EXTREME HYBRID SWEATSHIRT | PAGE 87
EXTREME FREEZER GLOVE | PAGE 105

INSULATED QUILTED SWEATSHIRT | PAGE 90

OUTERSHELL, INSULATION & LINING

You do tough work so our sweatshirts are made to withstand all-day wear on the hardest jobs. You get more than off-the-shelf insulation packages with our sweatshirts, which can have enough insulating power to protect well below freezing. Our 2-and 3-layer styles offer more warmth and comfort with soft inner linings.

VERSATILITY

Under a jacket, paired with bib overalls, or just with pants – sweatshirts are the most versatile layer you can use to get your comfort level and warmth just right.

PREMIUM SWEATSHIRT FEATURES

With us, it's never just about warmth. We want to help you get the job done better. That's why we offer premium sweatshirts with additional functionality like Performance-Flex, waterproof zippers and Grip Assist (features vary by style).

WOMEN'S BIBS & PANTS NOT JUST BUILT FOR WORK

These products are built for women. Whether you're on a jobsite or in a freezer, the cold doesn't mean you get a day off. Poorly fitting gear doesn't protect and it distracts from the job at hand. Skip the frustration with protection and fit designed just for you.

WOMEN'S INSULATED SOFTSHELL BIB OVERALLS

0355

WOMEN'S IRON-TUFF® BIB OVERALLS

- 11.25 oz. RefrigiFill™ polyester insulation
- Tear and abrasion-resistant 400 denier nylon outershell
- Heavy-duty brass zipper with storm flap
- Water-repellent, wind-tight finish
- Brass rivets reinforce stress points
- Reflective silver piping
- Bound seams seal out drafts
- Knit side gussets for better fit
- 2 Hand-warmer pockets
- Thigh-high leg zippers

GLOVE ANATOMY

Below are features to consider when selecting your next pair of gloves. These features can help you find the ideal glove for your environment.

POLARFORCE® GLOVE | PAGE 106

COWHIDE & CANVAS | PAGE 111
INSULATED GOATSKIN LEATHER | PAGE 110

LEATHER GLOVES

Leather provides the most durability for tough jobs with heavy abrasion.

54 GOLD GLOVES | PAGE 107

ABRASION PADS & REINFORCED THUMB CROTCH

Abrasion pads cover frequently used areas with an extra layer for comfort and durability. Reinforced thumb crotches are an extra layer between the thumb and forefinger, providing toughness where you need it most.

CUFFS

There are many different types of cuffs, each with their own benefits, so think about what you will need most: protection, comfort, easy on/off or warmth.

GRIPS OR DIPPED

If you have to pick up or handle items all day, a glove with a coating or extra grip will be ideal. The extra grip patterns will prevent slipping and hand fatigue, while coated or dipped gloves will also provide these benefits and may add some water resistance.

HIVIS THERMAL ERGO CUT RESISTANT | PAGE 115

CUT RESISTANT

We offer several cut-resistant gloves so you can safely use knives, box cutters and more. Cut-resistance level, rated A1 through A9, is determined by how much weight is required for a straight blade to cut through the material. The more weight it takes, the higher the rating.

1000-1499 grams to cut
Light/medium cut hazards:
Assembly, packaging and general warehouse.

1500-2199 grams to cut
Medium cut hazards:
Canning, food preparation and general warehouse.

2200-2999 grams to cut
Medium/heavy cut hazards:
Metal fabrication, heavy food preparation and processing, heavy-use warehouse/packaging.

3000-3999 grams to cut
High cut hazards:
Metal stamping/recycling, pulp & paper (changing slitter blades), glass manufacturing, recycling plant/sorting, food & meat processing.

INSULATION

Insulation is based on weight as well as layers of insulation. Multiple layers, including outershell and lining, can significantly increase warmth.

IMPACT PROTECTION

Impact protection gloves feature dense pads on the back of the hand, knuckles or fingers to help protect you from day-to-day bangs and pinches.

ERGO FIT

An ergonomic fit means that the glove is pre-curved so you don't have to work as hard to bend the glove.

INDURADEX® RATING

When choosing a glove, you need to know if it has the features you need for work. Our Induradex® ratings let you know how a glove compares to other gloves we offer in terms of insulation, durability and dexterity. Higher numbers mean better performance in those areas.

Induradex®	Insulation	9	Durability	9	Dexterity	6
------------	------------	---	------------	---	-----------	---

EXTREME FREEZER GLOVE | PAGE 105

FROSTLINE® GLOVE | PAGE 107

PERFORMANCE-FLEX

Insulation adds bulk to gloves, which can sometimes get in the way of work. Performance-Flex is a special ribbed design over the knuckles that makes it easier to grab, bend and work while keeping your hands protected.

HIVIS ERGO GLOVE | PAGE 114

DIPPED/COATED GLOVES

RefrigiWear® offers a number of different dips and coatings on gloves to help you tackle a range of jobs and conditions.

INNOVATIVE SOLUTIONS

Keypads and touchscreens are common now, but when you have to remove your gloves to use them, it defeats the purpose of even wearing them. Gloves with Touch-Rite and Key-Rite nibs make it easy to use devices without removing your gloves.

LEARN MORE AT REFRIGIWEAR.COM/NIBS
EXTREME FREEZER GLOVE | PAGE 105

TOUCH-RITE NIB FOR TOUCHSCREENS

Exclusive Touch-Rite Nibs from RefrigiWear® work on both touchscreens and keypads, allowing employees to remain productive without removing their gloves.

EXTREME FREEZER GLOVE | PAGE 105

AVAILABLE IN STYLES:

T679 (PAGE 105) **T282** (PAGE 109)

SPECIAL FEATURES

Located on the right index finger. Easy to unscrew and replace.

A pocket on the left glove allows for secure storage and easy access to replacement nibs.

KEY-RITE NIB FOR KEYPADS

Exclusive Key-Rite Nibs from RefrigiWear® work on keypads and pressure sensitive screens to help employees stay productive and protected. Nibs can be placed on any and as many fingers as needed.

WHY USE A LINER?

Boost the warmth of other gloves, add another layer of protection and soak up sweat when you use a liner. Wear them alone in moderate temps for added padding and protection. You want them snug, but not tight, for maximum dexterity when working.

HEAVYWEIGHT KNIT LINER | PAGE 119

1207 CUT RESISTANT PERMAKNIT

FOOTWEAR FEATURES

Most work boots are not engineered to keep you warm when you're walking on cold floors for hours or in -20°F freezers.

At RefrigiWear®, we design all of our footwear for maximum comfort, durability, safety and especially warmth when you really need it. We also make sure that the materials can stand up to extreme conditions.

ICE LOGGER™ | PAGE 126

COMFORT RANGES

RefrigiWear® developed its temperature Comfort Ranges to help guide you to the right level of insulation for your activity level and environment.

ICE VIKING | PAGE 125

PLATINUM BOOT | PAGE 125

OUTSOLES

All of our outsoles, including the RefrigiWear® Anti-Slip and Hybrid Traction outsoles, are designed to handle contact with cold floors and not break down when exposed to different temps throughout the day. We also partnered with Vibram®, the world's premier outsole manufacturer, to design outsoles that won't crack, slip or let you down while working in the cold.

Learn more about our outsoles at refrigiwear.com/outsoles

INDURASAFE®

InduraSafe® Ratings indicate the level of Insulation, Durability and Slip Resistance a boot provides. Higher numbers mean better ratings. The material, construction and the anticipated lifespan of the boot help indicate durability. Slip resistance relies on the outsole and Mark II Slip Resistance Testing.

InduraSafe®	Insulation	9	Durability	8	Slip	8
-------------	------------	---	------------	---	------	---

EXTREME PAC BOOT | PAGE 123

BOOT ANATOMY

If your feet aren't happy, no part of you is. Footwear plays a key role in safety and comfort. That's why footwear from RefrigiWear® features a variety of temperature ratings and protective components for your complete safety and comfort.

When you're choosing the right boot for your job, consider the insulation package, ankle support and protection, toe design and slip resistance.

Ankle Support + Protection

A higher boot with a snug fit provides more support for your ankles and helps reduce fatigue by adding stability. By providing more coverage, a higher boot helps protect the critical ankle area from light scrapes and impacts. A padded ankle collar will also add comfort.

Toe Design

All our footwear is designed with composite or aluminum safety toes. This lightweight construction creates less foot fatigue while still protecting your feet from accidents and injury on the job.

Slip Resistance

Slip-resistant soles are an important part of any safety consideration. All of our boots go through Mark II Slip Resistance Testing and are given a score with our InduraSafe® Rating.

INSULATION PACKAGE

We offer boots with a range of insulation packages, including many with insulation and DRI-BLAZE® linings. Check the comfort rating and insulation package closely – you don't want too much or too little. We have boots that protect down to -60°F and others that'll keep you comfortable when the temps are hovering around freezing. Make sure it matches the conditions you'll be working in. And don't forget: RefrigiWear® socks add more warmth and comfort, too.

VITACOMFORT® SYSTEM

VitaComfort® provides needed relief from foot fatigue, pain and injury so you can stay on your feet all day and get the job done.

VitaComfort® takes care of your feet so you can concentrate on what's most important—your work and safety.

↑ Shock-absorbing gel provides relief to knees and reduces foot fatigue.

↑ Gel layer molds around feet and provides cushioning to enhance comfort.

1 OUTSOLE

- Slip-resistant and durable
- Athletic and streamlined

2 MIDSOLE

- Lightweight and superior support
- Shock absorbing

3 COMFORT GEL LAYER

- Max comfort and breathable
- Moisture wicking for drier feet

4 PREMIUM INSOLE

- Added cushioning arch support
- Adds stability and pulls moisture away

5 360 DEGREE PADDING

- Extra comfort

BOA®

BOA®
BOA® Fit
System

The BOA® Fit System gives you a fast, effortless, snug fit all day, all at the turn of a dial. Once you've dialed it in for your preferred tightness, it won't come loose. Perfect for cold environments because you don't have to remove your gloves to make adjustments. Get the perfect fit at the turn of a dial.

HEADWEAR

Don't skip head protection in the cold. Heat escapes through uncovered areas, like the head. Headwear also helps protect vulnerable areas such as ears, nose and mouth from frostbite. RefrigiWear® offers a wide range of headwear, from caps to full masks, so you can choose the right protection.

- 2 x AAA batteries included

004TH INFRARED DIGITAL THERMOMETER

- Reads -67° to 536° F with $\pm 2^\circ$ accuracy
- Fahrenheit and Celsius options
- 16:1 Spot ratio
- Dual laser for high accuracy
- Backlit LCD display
- Certified to meet NIST accuracy standards
- 14 Hours of use with 1 9V battery
- Carrying case

003TH ADVANCED DIGITAL THERMOMETER

- Reads -58° to 300°F with $\pm 2^\circ$ F accuracy
- Switches from Fahrenheit to Celsius
- BioCote® antimicrobial agent
- Waterproof
- 1.5 mm Tip
- Meets NSF guidelines
- Data hold

002TH DIAL THERMOMETER

- Watertight plastic magnifying lens
- Reads -40° to 160°F
- Meets NSF guidelines
- Pocket dial

001TH DIGITAL THERMOMETER

- Simple, compact styling
- Reads -40° to 300°F
- Meets NSF guidelines
- Data hold

PREMIUM SAFETY GLASSES

0025SG
PREMIUM SAFETY GLASSES

- Meets ANSI Z87.1+ and SEI Z94.3: CAN/CSA eye protection standards
- Scratch resistant polycarbonate lens provides 99% UVA/B/C protection.
- Built-in brow guard shields against overhead particles.
- Soft and adjustable nose piece provides a customized fit to prevent slipping.
- Special dielectric hinge design contains no metal parts.

021HH
HAND WARMERS

- All-natural, self-activating hand-warmer
- Up to 10 hours of warmth
- Average temperature 126° to 144°F
- 40 Packs of 2 per case

022HS
SUPER HAND WARMER

- All natural ingredients
- Up to 18 hours of warmth
- Larger than standard hand-warmers
- 40 Warmers per case

024TW
TOE WARMERS

- All natural ingredients
- Up to 8 hours of heat
- Adheres to bottom of toes
- 40 Packs of 2 per case

023HI
HEATED INSOLE

- Full-foot insole warmer
- Up to 9 hours of heat
- Adheres to bottom of sock
- 16 Packs of 2 per case

0600 REFRIGIWEAR® SUSPENDERS

- Heavy-duty adjustable elastic
- Metal clasps
- Designed to be worn with RefrigiWear® pants for more comfort and fit

0600R One Size Fits All

0135 BACK BRACE

- Extra-wide panel for superior support and comfort
- 1 1/2" Elastic suspenders
- Adjustable clips and tapered abdominal support to customize fit and support
- Side and lumbar padding to increase comfort and support

TO FIND YOUR PERFECT REFRIGIWEAR® FIT, TAKE ALL MEASUREMENTS OVER THE CLOTHES YOU WILL BE WEARING.

- For help finding your size, view our full sizing chart online at refrigiwear.com/customer-service/sizing-chart
- RefrigiWear® garments should fit loosely.
- If your size is borderline, choose the larger size.
- Sizing chart is based on Regulars [5'7"-6'].
- Tall sizes are approximately 2" longer in sleeves, inseam and torso [6'1"-6'5"]. Tall is not available in size small.
- Short sizes are approximately 2" shorter in sleeves, inseam and torso [5'-5'6"].
- **Custom Sizes Are Available!** Contact Customer Service for assistance at 800-645-3744.

HOW TO TAKE YOUR MEASUREMENTS

MEASURE OVER CLOTHING TO BE WORN.

CHEST

Measure around fullest part of chest or bust, underarms, and around shoulder blades. Keep tape straight and level.

WAIST

Measure around natural waistline below last rib and above hip bones. Don't hold your breath.

TORSO

Measure from the top of the collar to the crotch seam.

SLEEVE LENGTH

Extend your arm straight out to the side. Measure from the center of the back to the wrist. For best comfort, round up to find total inches.

INSEAM

Measure from base of crotch seam to top of shoe to be worn.

MEN'S SIZES	XS	S	M	L	XL	2XL	3XL	4XL	5XL

ALTERATIONS, CUSTOM & SPECIAL SERVICES

RefrigiWear® garments can be customized to your exact specifications. You must contact Customer Service to request customization of your garment. Please allow two weeks for delivery.

ALTERATIONS

- Shortening sleeves or trousers
- Adding pockets, leather patches and radio straps
- Add fleece patches to inside of garment
- Add removable patches
- Safety harness / D-ring access point

CUSTOM & SPECIAL SERVICES

- Non-stock sizes, made to measure
- Custom colors and HiVis colors by request
- Add 3M® Scotchlite® Reflective Tape in silver, orange, yellow with silver stripe, white or yellow

Returns

RETURNS

To return any product, call our Customer Service Team at 800-645-3744.

To read more about our return process, visit refrigiwear.com/returns

Repairs

REPAIRS

Nothing is more frustrating than an issue with your favorite gear. That is why we offer in-house repair services to get your gear back in action. Please allow two weeks (not including shipping) for your repair to be completed.

Please contact Customer Service at **800.645.3744** or email keepmewarm@refrigiwear.com to process your repair. You will be given an RMA number and form to use for shipping. The RMA number and form (showing bar code) **MUST** be attached to the outside of the box for your repair to be processed. Boxes without RMA form attached will not be processed.

Laundry

LAUNDRY

Have a big pile of dirty protective gear and nowhere to wash it? Let us handle it for you! RefrigiWear® offers laundering services for garments. Cleaning services usually take 3 days, not including shipping time.

IN-HOUSE EMBROIDERY

Customize your order with logos and names. All embroidery is done at our factory in Dahlonega, GA. We control the entire embroidery process—from digitizing all the way through packaging—to ensure superior quality and timeliness of your order.

DIRECT EMBROIDERY

- COMPANY LOGOS
- JOB TITLES
- NAMES
- NUMBERS
- SPECIAL EVENTS
- AWARDS

Direct embroidery provides a premium appearance and the most professional look. This is our most requested option. With Pantone® color matching, there are thousands of colors to choose so your embroidery will match your logo and brand exactly.

Direct embroidery remains intact for the life of the garment, and threads are color-fast for a significant length of time with typical wash and wear.

Visit refrigiwear.com/embroidery to learn more.

EMBROIDERY ADDS A PROFESSIONAL LOOK

With our embroidery, screen printing, patch and woven emblem technology, you can add logos, names and numbers to multiple locations on almost every RefrigiWear® garment.

HEAT TRANSFERS

Heat transfers impact only the exterior of the garment and allows you to use intricate, picture-quality images.

- Low-cost alternative to embroidery
- Great for large graphics on back of garments
- Must be a minimum order of 50 units
- Allow 7-10 days for production

SELF-PATCH EMBLEM

Self-patch utilizes a swatch of the same material as your garment for an embroidering patch. This ensures a match to your garment, but it can still be easily removed and replaced.

WOVEN EMBLEM

Woven designs give you greater flexibility on a patch that is sewn onto the garment. It also makes replacement easy. Woven Label Emblems are manufactured using high-speed automatic weaving looms. Unlike embroidered emblems which are produced on twill materials, the interlaced weaving process creates the entire emblem and design at the same time, in two or more colors.

Visit refrigiwear.com/embroidery to learn more.

COLD TIPS

10 TIPS TO STAY WARM AND SAFE FOR INDOOR + OUTDOOR WORKERS

Our clothing keeps you warm, safe and productive in cold environments, but choosing the right clothing is only part of the process. To make it simple, here are 10 cold facts that can help you stay warm.

CHOOSE CLOTHES ACCORDING TO YOUR ACTIVITY LEVEL.

More active = less insulation
Less active = more insulation

DRINK MORE WATER, LESS CAFFEINE

Caffeine can cause dehydration, making you more vulnerable to the cold. Drink lots of water to stay hydrated & warm.

EAT MORE

When working in cold temperatures, you should average at least 2,400 calories and up to 4,000 calories per day.

DON'T WEAR CLOTHING THAT IS TOO TIGHT OR TOO LOOSE

Insulated clothing or layers should fit comfortably and also help seal out drafts.

PAY ATTENTION TO YOUR BODY

Get out of the cold if you experience extreme drowsiness, loss of balance, extreme shivering or slower breathing.

AVOID SWEAT BUILD UP

Stay dry to maintain warmth. Moisture can prevent you from staying warm so look for moisture wicking layers.

PROTECT BARE SKIN

Cover all areas that will be exposed to cold temperatures or wind.

LAYER CLOTHING

A good inner layer insulates and wicks moisture away from the skin. The outer layer continues the wicking process and insulates by preventing body heat from escaping.

DON'T SMOKE OR DRINK ALCOHOL

Nicotine and alcohol affect the body's ability to regulate and conserve heat, especially in your extremities.

WEAR REFRIGIWEAR® GARMENTS!

RefrigiWear® offers head-to-toe protection for a variety of temperatures and activity levels.
