When you work in the cold, you need to know if your gear will keep you warm enough. Many of our products, from jackets to boots, have Comfort Ratings to help you figure out what would work best in your environment. We test our products in a range of conditions to find the Comfort Ratings, so you know what you can expect for warmth.

### PLEASE REMEMBER THAT COMFORT RATINGS ARE ONLY GUIDELINES.

What you do in the cold has a huge impact on how warm you are. The more active you are, the less insulation you need, because you generate your own warmth. If you aren't as active, the temps might feel colder than they actually are. Each person's unique circulation, metabolism and physical characteristics are also a factor, so bear that in mind when selecting products based on Comfort Rating.

THROUGHOUT THE CATALOG, YOU WILL NOTICE ICONS NEXT TO PRODUCTS. THESE ICONS INDICATE DIFFERENT FEATURES FOR OUR PRODUCTS, FROM ANSI COMPLIANCE TO USING RECYCLED MATERIALS. THE LIST BELOW DETAILS WHAT EACH ICON MEANS.

	<b>ANSI Certified</b> Meets ANSI standards for safety. See page 72 for more info.		<b>Performance-Flex</b> Expanding, ribbed fabric keeps you flexible on the job, extending your range of motion.		<b>UV Protection</b> These products are treated to block damaging UV rays.
	<b>Antimicrobial</b> Prevents bacteria from creating a stink.		<b>Max Comfort</b> Our VitaComfort® system absorbs impact and wicks away moisture to keep you on your feet. See page 113 for more info.		<b>Ultra Slip Resistant</b> The highest slip-resistant rating.
	<b>Breathable</b> Lets sweat evaporate so you stay dry and comfortable.		<b>Moisture-Wicking</b> Wicks moisture away from skin to let it evaporate so you stay dry and comfortable.		<b>Waterproof</b> These products are 100% waterproof.
	<b>Cut Resistant</b> Tested and certified to reduce injury from sharp objects. See page 94 for more info.		<b>Teflon® Coated</b> Teflon® treatment keeps dirt and grime from staining your gear.		<b>Water-Repellent</b> Snow, light rain and condensation rolls off the treated outershell of these products.
	<b>Dual-Layer</b> Added warmth thanks to two layers of protection.		<b>Puncture Resistant</b> Puncture-resistant plate along the sole.		<b>Wind-Tight</b> Outershell keeps the wind out and the warmth in.
	<b>Lightweight</b> Won't weigh you down while you're working.		<b>Eco Friendly</b> These products are crafted from recycled or sustainable materials.		<b>CSA</b> Tested and certified CSA safety compliance.
	<b>BOA® Fit System</b> Get a snug, precise fit on footwear that lasts all day. See page 114 for more info.		<b>Reversible</b> These products can be reversed, to extend wear or to offer a different look.		<b>AirBlaze®</b> Features our lightweight, warm insulation made from sustainable materials.
	<b>Grip Assist</b> Don't drop the ball (or box) with added Grip Assist silicone dots.		<b>4-Way Stretch</b> Features materials that stretch with you for added performance and comfort.		<b>CE</b> Meets European Safety Standard requirements.
	<b>Touchscreen</b> Compatible for use with touchscreen devices.		<b>Cold Protection Shield</b> Tested and certified for compliance to European cold-protective equipment standards.		<b>Mechanical Risks</b> Tested and certified for compliance to European standards for mechanical risks.

## QUALITY STATEMENT

Since 1954, RefrigiWear® has been committed to Quality, Performance and Reliability. Our founder, Myron Breakstone, demanded a standard of excellence that will never be compromised. We understand that the customer defines quality. To consistently exceed customer expectations, we challenge our dedicated employees and loyal suppliers to continuous improvement of every product, process and service. We promise to aggressively protect the reputation of RefrigiWear® as the industry leader in quality.

Learn how our multi-step process ensures quality won't be compromised:

## 54 GOLD

### WARM WORKERS WORK WONDERS

Your team is the best there is. So give them the best to get the job done. We've been keeping teams warm since 1954, so we know what it means to be the Gold Standard. With AirBlaze® insulation to keep garments lightweight but warm, Performance-Flex to improve movement and designs inspired by our original Iron-Tuff® freezer suits, 54 Gold is the right gear for freezing jobs.

54 GOLD JACKET | PAGE 18  
54 GOLD BIB OVERALLS | PAGE 18

54 GOLD JACKET | PAGE 18  
54 GOLD BIB OVERALLS | PAGE 18

### AIRBLAZE® INSULATION

AirBlaze® keeps you warm and lets you work without the weight of a heavy, bulky garment.

### QUIET OUTERSHELL

Don't get distracted by noisy fabric.  
The soft outershell is quiet.

## CLASSIC DESIGN, MODERN FEATURES

We took inspiration from the Iron-Tuff® freezer suits that made us famous and created gear ready for work in the 21st century. 54 Gold helps you perform your best every day with updated features that add warmth, mobility, comfort and style.

## REINFORCED STRESS POINTS

Brass rivets reinforce stress points to make these garments extra durable.

How can a garment so lightweight keep you warm down to -50°F? Answer: the combination of AirBlaze® insulation and our new WarmPlus graphene lining. Printed in a stylish gold honeycomb design, the WarmPlus lining absorbs your body heat as it escapes and transfers it back to you, enhancing protection against the cold.

### WARM | TOUGH | ICONIC

There's only one original freezer suit and RefrigiWear® invented it. From the Alaska Pipeline to every step of getting food to America's tables, Iron-Tuff® has been there protecting workers since 1954. Our iconic line of garments provides protection down to -50°F as well as durability and reliability that you can count on for years to come. Extreme durability, legendary warmth – it's the original way to Master the Cold®.

### BRASS RIVETS AT HIGH-STRESS POINTS

Brass rivets reinforce stress points to make these garments extra durable.

### HEEL REINFORCEMENT PATCHES

Iron-Tuff® Bib Overalls and Coveralls have added protection at the heel to prevent fraying and tearing.

### OVERTIME COMING UP? BRING IT!

Our new **VitaComfort® Bounce** midsole in the Iron-Tuff® **Hiker** helps you keep that bounce in your step, even after a long shift. The advanced material absorbs the shock from your step, cushioning your foot as it makes contact with the floor.

IRON-TUFF® HIKER BOOTS | PAGE 28

### REFRIGIFILL™

Stay warm and comfortable with RefrigiFill™, our proprietary blend of insulation that has been perfected over our 67 years of insulating garments.

WOMEN'S IRON-TUFF® JACKET | PAGE 23

IRON-TUFF® INSULATED GLOVE | PAGE 28

### HEAVY-DUTY BRASS ZIPPERS

No frustrating fights to get out of this gear. Our brass zippers are easy to use and durable.

### BOUND SEAMS TO PREVENT DRAFTS & INCREASE DURABILITY

Bound seams don't just seal out the cold – they help Iron-Tuff® handle whatever you throw at it.

## FROSTLINE®

When workers aren't weighed down, they accomplish amazing things. With our innovative AirBlaze® insulation, we've created incredibly lightweight gear that is durable, flexible and crazy warm. With the durability of softshell, the warmth of a quilted design and the comfort and mobility of Performance-Flex, Frostline® is the future of protection from freezing temps.

### SAFETY & STYLE

This hardworking boot is waterproof and won't crack from the cold.

## SOFTSHELL

You aren't going to find toughness like this anywhere else. Get a modern athletic style and industrial-strength protection with the RefrigiWear® Softshell Collection. Softshell is more flexible and less bulky than other materials – so you can get the job done in comfort. Our softshell garments offer protection that works as hard as you do, in modern designs with plenty of functional features.

### HIVIS SOFTSHELL

There's more to safety than just staying warm. Our high-visibility (HiVis) and enhanced-visibility softshell garments are just as tough, flexible and warm as our regular softshell, but they offer added safety in dim warehouses or on busy docks. With HiVis colors and reflective tape, these garments won't just protect you from the cold – they'll also keep you safe from the hazards of the job.

CHILLSHIELD® BIB OVERALLS

## CHILLSHIELD®

Above-zero freezing temps are still dang cold. You might not be working in negative temps, but the cold will still take a toll if you aren't protected. Featuring our lightweight AirBlaze® insulation, our new ChillShield® line protects in temps from 10°F up to 40°F, so you can keep out the cold and get to work.

### AIRBLAZE® INSULATION

All the warmth but 40% lighter. AirBlaze® lets you work without the weight.

CHILLSHIELD® BIB OVERALLS

### ABRASION-RESISTANT PANELS

Tough days won't wear this gear down. With added abrasion-resistant panels for high contact areas, ChillShield® gear won't snag or tear just because of a rough day at work. Long shifts don't make you unravel. Get gear that won't either.

LIGHTWEIGHT DIAMOND QUILTED JACKET

## DIAMOND QUILTED

Diamond Quilted jackets are a popular style, but many aren't ideal for work because of their bulk and thin outershell. Not so with our Diamond Quilted products. More durable than standard quilted gear, these jackets aren't just stylish – they're hard workers. Our collection is fashionable AND tough.

## HIGH-VISIBILITY

### STAY SEEN AND STAY SAFE

When your job combines extreme low temps with low visibility, you need the added safety of HiVis that protects down to -50°F and -60°F. Our Extreme and Iron-Tuff® HiVis are ANSI certified and ready to work, with durability and visibility for the toughest jobs. Don't let hard work go unseen.

# ANSI STANDARDS

The American National Standards Institute (ANSI) sets different safety standards that are enforced by OSHA. Different jobs require different minimum standards to be safe.

## TYPES

There are three types of ANSI HiVis gear:

**Type O** – Off-Road

**Type R** – Roadway

**Type P** – Public Safety

Each type offers specific features to meet the safety concerns of different jobs.

## CLASSES

There are four classes of ANSI gear:

**Class 1** **Class 2** **Class 3**  
**Class E** (supplemental)

Each Class increases the amount of HiVis material and reflective tape that the garment has. Class E are pants or bib overalls that can be added to an outfit to raise the Class rating.

# CSA CERTIFIED

To be **CSA certified**, the garment needs to have an X shape for the reflective tape on the back to indicate which direction the wearer is facing.

**0399**

## SWEATSHIRTS THAT WORK HARD

Our sweatshirts come in different styles and materials, some up to 3 layers, so you have choices for your job and temperature range.

### VERSATILITY

Under a jacket, paired with bib overalls, or just with pants – sweatshirts are the most versatile layer you can use to get your comfort level and warmth just right.

POLARFORCE® SWEATSHIRT | PAGE 35  
POLARFORCE® PANTS | PAGE 34

### OUTERSHELL, INSULATION & LINING

You do tough work so our sweatshirts are made to withstand all-day wear on the hardest jobs. You get more than off-the-shelf insulation packages with our sweatshirts, which can have enough insulating power to protect well below freezing. Our 2-and 3-layer styles offer more warmth and comfort with soft inner linings.

INSULATED QUILTED SWEATSHIRT | PAGE 83

FREEZER EDGE® HOODED SWEATSHIRT | PAGE 81

### PREMIUM SWEATSHIRT FEATURES

With us, it is never just about warmth. We want to help you get the job done better. That's why we offer premium sweatshirts with additional functionality like Performance-Flex, waterproof zippers and Grip Assist (features will vary by style).

**8480**

## WOMEN'S BIBS & PANTS

### NOT JUST BUILT FOR WORK

These products are built for women. Whether you're on a jobsite or in a freezer, the cold doesn't mean you get a day off. Poorly fitting gear doesn't protect and it distracts from the job at hand. Skip the frustration with protection and fit designed just for you.

WOMEN'S IRON-TUFF® BIB OVERALLS

# GLOVE ANATOMY

Below are features to consider when selecting your next pair of gloves. These features can help you find the ideal glove for your environment.

## ABRASION PADS AND REINFORCED THUMB CROTCH

Abrasion pads cover frequently used areas with an extra layer for comfort and durability. Reinforced thumb crotches are an extra layer between the thumb and forefinger, providing toughness where you need it most.

POLARFORCE® GLOVE | PAGE 98

## CUFFS

There are many different types of cuffs, each with their own benefits, so think about what you will need most: protection, comfort, easy on/off or warmth.

## GRIPS OR DIPPED

If you have to pick up or handle items all day, a glove with a coating or extra grip will be ideal. The extra grip patterns will prevent slipping and hand fatigue, while coated or dipped gloves will also provide these benefits and may add some water resistance.

COWHIDE & CANVAS | PAGE 103  
INSULATED GOATSKIN LEATHER | PAGE 102

## LEATHER GLOVES

Leather provides the most durability for tough jobs with heavy abrasion.

HIVIS THERMAL ERGO CUT RESISTANT | PAGE 107

## CUT RESISTANT

We offer several cut-resistant gloves so you can safely use knives, box cutters and more. Cut-resistance level, rated A1 through A9, is determined by how much weight is required for a straight blade to cut through the material. The more weight it takes, the higher the rating.

1000-1499 grams to cut  
Light/medium cut hazards:  
Assembly, packaging and  
general warehouse.

1500-2199 grams to cut  
Medium cut hazards:  
Canning, food preparation  
and general warehouse.

2200-2999 grams to cut  
Medium/heavy cut hazards:  
Metal fabrication, heavy food  
preparation and processing,  
heavy-use warehouse/  
packaging.

3000-3999 grams to cut  
High cut hazards:  
Metal stamping/recycling,  
pulp & paper (changing slitter  
blades), glass manufacturing,  
recycling plant/sorting, food &  
meat processing.

EXTREME FREEZER GLOVE | PAGE 97

## INSULATION

Insulation is based on weight as well as layers of insulation. Multiple layers, including outershell and lining, can significantly increase warmth.

## IMPACT PROTECTION

Impact protection gloves feature dense pads on the back of the hand, knuckles or fingers to help protect you from day-to-day bangs and pinches.

## ERGO FIT

An ergonomic fit means that the glove is pre-curved so you don't have to work as hard to bend the glove.

## INDURADEX® RATING

Induradex®	Insulation	9	Durability	9	Dexterity	6
------------	------------	---	------------	---	-----------	---

When choosing a glove, you need to know if it has the features you need for work. Our Induradex® ratings let you know how a glove compares to other gloves we offer in terms of insulation, durability and dexterity. Higher numbers mean better performance in those areas.

FROSTLINE® GLOVE | PAGE 99

## PERFORMANCE-FLEX

Insulation adds bulk to gloves, which can sometimes get in the way of work. Performance-Flex is a special ribbed design over the knuckles that makes it easier to grab, bend and work while keeping your hands protected.

## DIPPED/COATED GLOVES

RefrigiWear® offers a number of different dips and coatings on gloves to help you tackle a range of jobs and conditions.

## INNOVATIVE SOLUTIONS

Keypads and touchscreens are all too common now, but when you have to remove your gloves to use them, it defeats the purpose of even wearing them.

RefrigiWear® offers two solutions:

LEARN MORE AT [REFRIGIWEAR.COM/NIBS](http://REFRIGIWEAR.COM/NIBS)

### TOUCHSCREEN SOLUTION TOUCH-RITE NIB

RefrigiWear's® exclusive Touch-Rite Nib works on both touchscreens and keypads, allowing employees to remain productive without removing their gloves.

### KEYPAD SOLUTION KEY-RITE NIB

RefrigiWear's® exclusive Key-Rite Nib works on keypads and pressure sensitive screens to help employees stay productive and protected while they work. Can be placed on any and as many fingers as needed.

#### Available in styles:

**T679** (Page 97)    **T282** (Page 101)

Located on the right index finger. Easy to unscrew and replace.

A pocket on the left glove allows for secure storage and easy access to replacement nibs.

#### Available in styles:

**K679** (Page 97)    **K353** (Page 100)  
**K319** (Page 100)    **K282** (Page 101)

### STRETCH LINER

- Moisture wicking
- Stretch-fit for maximum comfort
- **Sold by the dozen / Volume discounts available**

0302R One Size Fits All

#### WHY USE A LINER?

Boost the warmth of other gloves, add another layer of protection and soak up sweat when you use a liner. Wear them alone in moderate temps for added padding and protection. You want them snug but not tight for maximum dexterity when working.

HEAVYWEIGHT KNIT LINER

## FOOTWEAR FEATURES

Most work boots are not engineered to keep you warm when you're walking on cold floors for hours or in -20°F freezers.

At RefrigiWear®, we design all of our footwear for maximum **comfort, durability, safety** and especially **warmth** when you really need it. We also make sure that the materials can stand up to extreme conditions.

IRON-TUFF® HIKER | PAGE 116

## COMFORT RANGES

RefrigiWear® developed our temperature Comfort Ranges to help guide you to the right level of insulation for your activity level and environment.

ICE VIKING | PAGE 117

## OUTSOLES

All of our outsoles, including the RefrigiWear® Anti-Slip and Hybrid Traction outsoles, are designed to handle contact with cold floors and not break down when exposed to different temps throughout the day.

We also partnered with Vibram®, the world's premier outsole manufacturer, to design outsoles that won't crack, slip or let you down while working in the cold.

Learn more about our outsoles at  
[refrigiwear.com/outsoles](http://refrigiwear.com/outsoles)

## INDURASAFE®

InduraSafe®	Insulation	9	Durability	8	Slip	8
-------------	------------	---	------------	---	------	---

InduraSafe® Ratings indicate the level of Insulation, Durability and Slip Resistance a boot provides. Higher numbers mean better ratings. The material, construction and the anticipated lifespan of the boot help indicate durability. Slip resistance relies on the outsole and Mark II Slip Resistance Testing.

## BOOT ANATOMY

If your feet aren't happy, no part of you is. Footwear plays a key role in safety and comfort. That's why footwear from RefrigiWear® features a variety of temperature ratings and protective components for your complete safety.

Some of the features to consider when choosing the right boot for the job are **Insulation Package, Toe Design, Slip Resistance, and Ankle Support & Protection.**

### Ankle Support + Protection

A higher boot with a snug fit provides more support for your ankles and helps reduce fatigue by adding stability. By providing more coverage, a higher boot helps protect the critical ankle area from light scrapes and impacts. A padded ankle collar will also add comfort.

### Toe Design

All our boots offer a composite safety toe instead of steel. Composite toes offer superb protection, are lighter for less foot fatigue and conduct less cold in low temperatures keeping your feet warmer.

### Slip Resistance

Slip-resistant soles are an important part of any safety consideration. All of our boots go through Mark II slip resistance testing and are given a score with our InduraSafe® Rating.

EXTREME PAC BOOT | PAGE 115

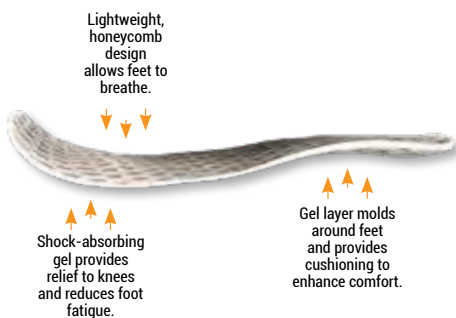

### Insulation Package

We offer boots with a range of insulation packages, including many with Thinsulate® insulation and **DRI-BLAZE®** linings. Check the comfort rating and insulation package closely – you don't want too much or too little. We have boots that protect down to -60°F and others that'll keep you comfortable when the temps are hovering around freezing. Make sure it matches the conditions you'll be working in. And don't forget RefrigiWear® socks add more warmth and comfort too.

## VITACOMFORT® SYSTEM

VitaComfort® provides needed relief from foot fatigue, pain and injury so you can stay on your feet all day and get the job done.

VitaComfort® takes care of your feet so you can concentrate on what's most important—your work and safety.

- 1 **OUTSOLE**
  - Slip resistant and durable
  - Athletic and streamlined
- 2 **MIDSOLE**
  - Lightweight and superior support
  - Shock absorbing
- 3 **COMFORT GEL LAYER**
  - Max comfort and breathable
  - Moisture wicking for drier feet
- 4 **PREMIUM INSOLE**
  - Added cushioning arch support
  - Adds stability and pulls moisture away
- 5 **360 DEGREE PADDING**
  - Extra comfort

**BOA®**  
BOA® Fit  
System

# BOA®

The BOA® Fit System gives you a fast, effortless, snug fit all day, all at the turn of a dial. Once you've dialed it in for your preferred tightness, it won't come loose. Perfect for cold environments because you don't have to remove your gloves to make adjustments. Get the perfect fit at the turn of a dial.

EXTREME HOODED BALACLAVA

Don't skip head protection in the cold. Heat escapes through uncovered areas, like the head. Headwear also helps protect vulnerable areas such as ears, nose and mouth from frostbite. RefrigiWear® offers a wide range of headwear, from caps to full masks, so you can choose the right protection.

See page 132  
for Face Covering

# TO FIND YOUR PERFECT REFRIGIWEAR® FIT, TAKE ALL MEASUREMENTS OVER THE CLOTHES YOU WILL BE WEARING.

- For help finding your size, view our full sizing chart online at [refrigiwear.com/customer-service/sizing-chart](http://refrigiwear.com/customer-service/sizing-chart)
- RefrigiWear® garments should fit loosely.
- If your size is borderline, choose the larger size.
- Sizing chart is based on Regulars [5'7"-6"].
- Tall sizes are approximately 2" longer in sleeves, inseam and torso [6'1"-6'5"]. Tall is not available in size small.
- Short sizes are approximately 2" shorter in sleeves, inseam and torso [5'5'-6"].
- **Custom Sizes Are Available!** Contact Customer Service for assistance at 800-645-3744.

## HOW TO TAKE YOUR MEASUREMENTS

### MEASURE OVER CLOTHING TO BE WORN.

#### CHEST

Measure around fullest part of chest or bust, underarms, and around shoulder blades. Keep tape straight and level.

#### WAIST

Measure around natural waistline below last rib and above hip bones. Don't hold your breath.

#### TORSO

Measure from the top of the collar to the crotch seam.

#### SLEEVE LENGTH

Extend your arm straight out to the side. Measure from the center of the back to the wrist. For best comfort, round up to find total inches.

#### INSEAM

Measure from base of crotch seam to top of shoe to be worn.

MEN'S SIZES	XS	S	M	L	XL	2XL	3XL	4XL	5XL
CHEST	30 - 32"	34 - 36"	38 - 40"	42 - 44"	46 - 48"	50 - 52"	54 - 56"	58 - 60"	62 - 64"

- Custom colors and HiVis colors by request
- Add 3M® Scotchlite® Reflective Tape in silver, orange, yellow with silver stripe, white or yellow

## RETURNS, REPAIRS & LAUNDRY

### RETURNS

To return any product, call our Customer Service Team at 800-645-3744. To read more about our return process, visit [refrigiwear.com/returns](https://refrigiwear.com/returns)

### REPAIRS

Nothing is more frustrating than an issue with your favorite gear. That is why we offer in-house repair services to get your gear back in action. Please allow two weeks (not including shipping) for your repair to be completed.

Please contact Customer Service at **800.645.3744** or email [keepmewarm@refrigiwear.com](mailto:keepmewarm@refrigiwear.com) to process your repair. You will be given an RMA number and form to use for shipping. The RMA number and form (showing bar code) **MUST** be attached to the outside of the box for your repair to be processed. Boxes without RMA form attached will not be processed.

### LAUNDRY

Have a big pile of dirty protective gear and nowhere to wash it? Let us handle it for you! RefrigiWear® offers laundering services for garments. Cleaning services usually take 3 days, not including shipping time.

## IN-HOUSE EMBROIDERY

Customize your order with logos and names. All embroidery is done at our factory in Dahlonega, GA. We control the entire embroidery process—from digitizing all the way through packaging—to ensure superior quality and timeliness of your order.

## DIRECT EMBROIDERY

**COMPANY LOGOS | JOB TITLES | NAMES | NUMBERS | SPECIAL EVENTS OR AWARDS**

Direct embroidery provides a premium appearance and the most professional look. This is our most requested option. With Pantone® color matching, there are thousands of colors to choose so your embroidery will match your logo and brand exactly.

Direct embroidery remains intact for the life of the garment, and threads are color-fast for a significant length of time with typical wash and wear.

Visit [refrigiwear.com/embroidery](http://refrigiwear.com/embroidery) to learn more.

### EMBROIDERY ADDS A PROFESSIONAL LOOK

With our embroidery, screen printing, patch and woven emblem technology, you can add logos, names and numbers to multiple locations on almost every RefrigiWear® garment.

### HEAT TRANSFERS

Heat transfers impact only the exterior of the garment and allows you to use intricate, picture-quality images.

- Low-cost alternative to embroidery
- Great for large graphics on back of garments
- Must be a minimum order of 50 units
- Allow 7-10 days for production

### SELF-PATCH EMBLEM

Self-patch utilizes a swatch of the same material as your garment for an embroidering patch. This ensures a match to your garment, but it can still be easily removed and replaced.

### WOVEN EMBLEM

Woven designs give you greater flexibility on a patch that is sewn onto the garment. It also makes replacement easy. Woven Label Emblems are manufactured using high-speed automatic weaving looms. Unlike embroidered emblems which are produced on twill materials, the interlaced weaving process creates the entire emblem and design at the same time, in two or more colors.

Visit [refrigiwear.com/embroidery](http://refrigiwear.com/embroidery) to learn more.
