

## 1.) Organizational structure

## 2.) Staffing in the departments and offices; its scale, function, program, etc.

## Programs

### 1. Virus Research

The pilot stages of VIP would focus on the development of expertise in the fields of identifying, cataloging, and studying viruses and the diseases they cause; these researches would serve as the foundation for future studies to be conducted by the VIP.

### 2. Diagnostics and Therapeutics Research

The Institute would study and develop innovative and applicable diagnostic and therapeutic tools and techniques for human, animal, and plant viruses and/or diseases. In collaboration with local companies and international partner institutions, the VIP aims to make these diagnostic and therapeutic tools accessible to the public by mass production and local distribution.

### 3. Vaccines Research

Research, development, and manufacturing activities of the VIP gearing towards the country's capability in producing its own vaccines against the ff. viruses and/or diseases they cause.

## 3.) Mission vision

At the moment no mission and vision.

The objective in establishing the VIP

☐ Serve as the premier research and development institute in the field of virology, encompassing all areas in viruses and viral diseases in humans, plants, and animals.

☐ Act as a venue for scientists, both here and abroad, to work collaboratively to study viruses of agricultural, industrial, clinical, and environmental importance.

☐ Establish strategic partnerships with the world's leading scientists, virology centers, and institutes and conduct innovative and pioneering research that will advance the frontiers of virology in the country.

## 4.) Space programming and requirements

Rendered perspectives of VIP

## 5.) Budgeting

Budgetary requirements still awaiting approval of bill.

2021	2022	2023	2024	2025	2026
284,000,000	762,815,000	810,000,000	881,000,000	955,000,000	1,030,000,000

6.) Any other information relating to its infrastructure and site develop

Design of the facility is under the jurisdiction of DPWH.
