

Polytechnic University of the Philippines (PUP) Socioeconomic Survey of Undergraduate Students (As of July 1, 2022)

This survey shall be used by the University in determining the profile of PUP undergraduate students in terms of their socioeconomic status. The target respondents for this survey are undergraduate students from the Main Campus, Branches and Satellite Campuses who are currently enrolled in the Second Semester of SY 2021-2022. This survey was conducted from June 29, 2022 to July 1, 2022.

Results and Discussion:

A total of **36,645 students out of 76,527** or **47.89%** of the total target respondents from the Main Campus, Branches and Satellite Campuses answered the survey through their SIS account.

Based on the data gathered, about **66.02% of the respondents** belong to a household earning **P22,000 and below (low income earner)**. While **22.34%** of the respondents belong to **lower middle class (P22,001-P44,000 monthly income)**; and,

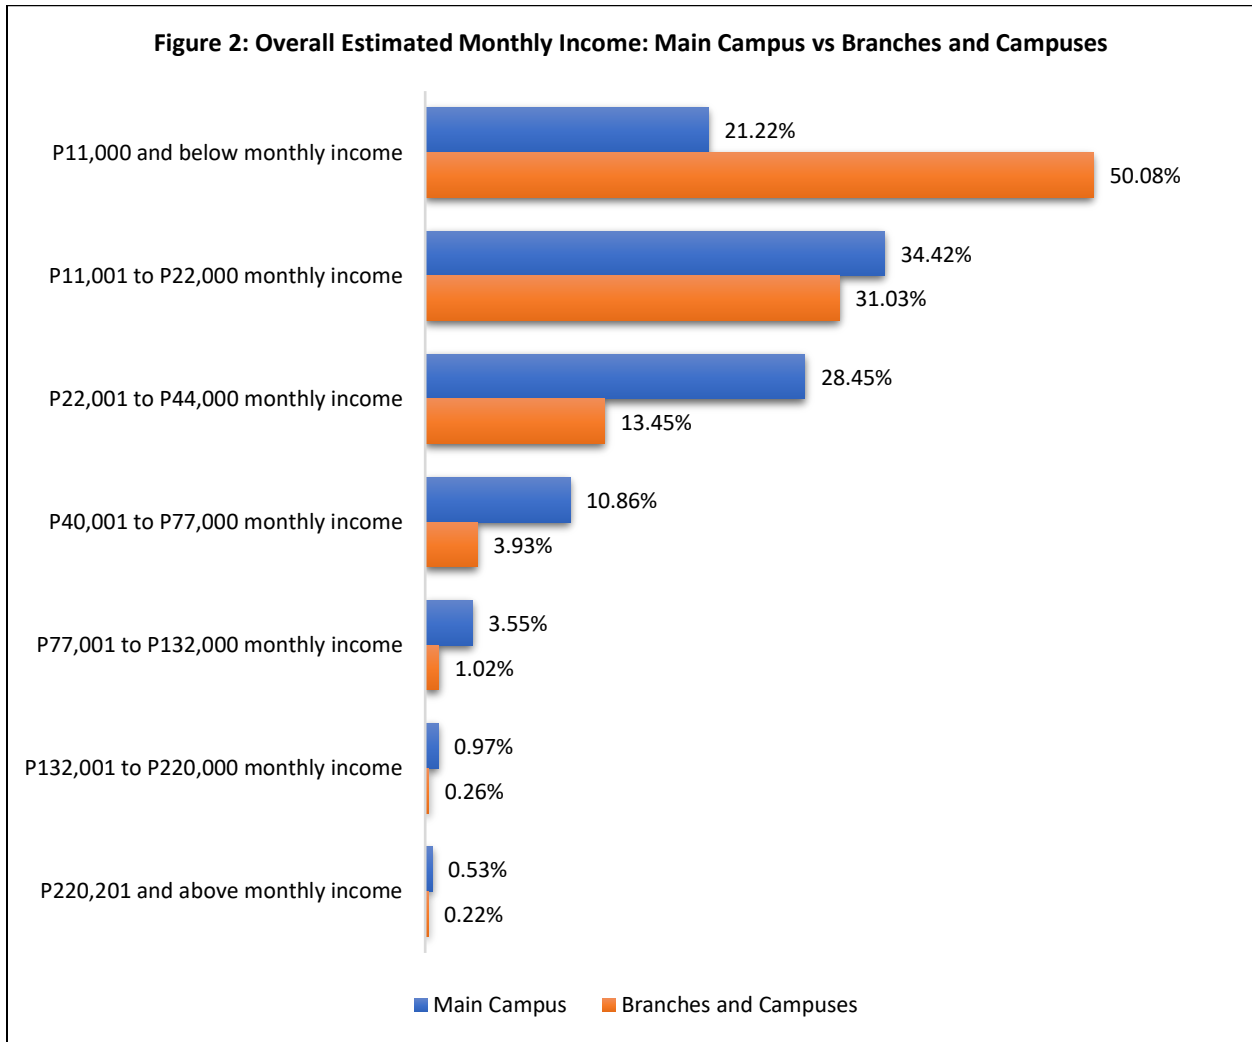

about **10% belongs to middle class families**. Figure 1 can be summarized based on the given table below:

P220,201 and above monthly income	115	0.53	33	0.22	148	0.40
Total	21,706	100.00	14,939	100.00	36,645	100.00

Due to the increasing demand for quality higher education, it is highly recommended to increase the subsidy for tuition fees and other expenses to be shouldered by the national government. This will help the students alleviate their level of economic status since majority of the students belongs to household with **low income earners**.
