

CONCLUSION

"Redacted" several properties have been blacked out and are not included in this listing.

With the additional evidence provided and based on the history of the maps and aerial photography of the subject properties showing irrigated land and cultivation of various crops, in the opinion of WaterBank®, MRGCD Map 89; Tract 135C1, 133B, 134, 135A1, 135B1, _____ have up to **13.62** acres with pre-1907 surface water rights within the Middle Rio Grande Valley of New Mexico. This equates to 28.58 acre-feet of consumptive-use surface-water rights.

Tract	Approximate Acreage	Estimated Acreage with Pre-1907 Surface Water Rights	Surface Water Right (AFCU)*
Tract 135C1	3.08	3.08	6.46
Tract 133B	0.04	.04	0.08
Tract 134	3.00	3.00	6.30
Tract 135A1	6.36	6.36	13.35
Tract 135B1	1.14	1.14	2.39
Totals:	13.62	13.62	28.58

*2.1 acre-feet consumptive use per acre of irrigated land.
