Building Highlights

SECOND GENERATION INFRASTRUCTURE

The premises operated for decades as a full service specialty grocery market, and the building retains infrastructure that most vacant retail boxes do not:

- Floor drains throughout the service areas
- Upgraded electrical service and power capacity
- Dedicated rear loading
- Existing plumbing runs supporting food preparation

For a restaurant, specialty food, prepared foods, bakery, or market concept, this infrastructure meaningfully reduces build out cost and shortens the timeline to opening. For other uses, the upgraded power and service capacity remain an asset.

SITE AND PARKING

The premises sits on a signalized hard corner with full access. Parking is provided in front of the space with additional parking in the rear of the building.

The site has ample parking with a ratio of approximately 6.5 per 1,000 square feet. Most neighborhood retail underwrites to 4 to 5 per 1,000.

THE CENTER AND AREA TENANTS

The premises anchor the corner of an established neighborhood retail node. Adjoining occupants include Jacobsen's Flowers of Bloomfield, Bloomfield Wine and Spirits, Stretch Zone, Martinizing, and Hudson's Place.

This is a stable, service driven tenant mix serving a repeat local customer base rather than a transient one. For an incoming tenant, that lineup delivers consistent daily traffic and signals a healthy, long tenured retail node rather than a distressed or transitional center.

Immediate area also includes Kroger, CVS, Lifetime Fitness, Starbucks, Corporate Chase Bank, National QSR's, to name a few.

IDEAL USES

The space is well suited to, but not limited to:

- Financial services, banking, wealth management, and credit unions
- Elevated full service and fast casual restaurant concepts
- Specialty food, prepared foods, bakery, butcher, and market concepts
- Coffee and dessert concepts
- Medical, dental, optical, and aesthetic retail
- Physical therapy and wellness
- Boutique fitness
- Salon and personal services
- Boutique apparel and specialty retail
- Permitted Uses Subject to Township Approval

Leasing Highlights

Signalized Hard Corner Position

Full visibility and access at the intersection of Long Lake Road and Telegraph Road (US-24), one of the primary north south arterials in Oakland County, with strong daily traffic volume in both directions.

Exclusive Parking at an Above Market Ratio

The site offers ample parking in front of the space and additional parking in the rear of the building, approximately 6.5 per 1,000 SF. Parking is a constraint on most comparable neighborhood retail space in this corridor. Here it is a competitive advantage.

Second Generation Food and Service Infrastructure

Floor drains, upgraded power, and rear loading already in place, reducing build out cost and speed to open for food, restaurant, and specialty market users.

Affluent and Established Trade Area

Bloomfield Township and the surrounding Bloomfield Hills and Birmingham communities represent one of the highest household income trade areas in the State of Michigan, with stable, long tenured residential density and strong daytime population.

Established Neighborhood Co-Tenancy

The property adjoins a stable, service-oriented retail lineup that generates consistent daily traffic, including Jacobsen's Flowers of Bloomfield, Bloomfield Wine and Spirits, Stretch Zone, Martinizing, and Hudson's Place.

Due Diligence

Phase I environmental and title review complete. Reports available to qualified prospects under confidentiality.

Flexible Use Profile

The combination of size, parking, corner visibility, and existing infrastructure supports an unusually wide range of uses, from financial services and medical to restaurant, specialty food, fitness, and boutique retail.
