DISCLAIMER/DISCLOSURE

Information contained herein was obtained from sources deemed to be reliable, but is not guaranteed. Any prospective purchaser/investor/tenant contemplating, under contract or in escrow for a transaction is urged to verify all information and to conduct their own inspections, investigations and due diligence through appropriate third party independent professionals selected by such prospective purchaser/investor/tenant.

All financial data should be verified by the prospective purchaser/investor/tenant including obtaining and reading applicable documents and reports and consulting appropriate independent professionals. Insite Commercial makes no warranties and/or representations regarding the veracity, completeness, or relevance of any financial data or assumptions. Insite Commercial does not serve as a financial advisor to any party regarding any proposed transaction. All data and assumptions regarding financial performance, including that used for financial modeling purposes, may differ from actual data or performance. Any estimates of market rents and/or projected rents that may be provided to a party do not necessarily mean that rents can be established at or increased to that level. Parties must evaluate any applicable contractual and governmental limitations, as well as market conditions, vacancy factors and other issues in order to determine rents from or for the property.

Legal questions from the prospective purchaser/investor/tenant should be discussed with an attorney. Tax questions from the prospective purchaser/investor/tenant should be discussed with a certified public accountant or tax attorney. Title questions from the prospective purchaser/investor/tenant should be discussed with a title officer or attorney. Questions from the prospective purchaser/investor/tenant regarding the condition of the property and whether the property complies with applicable governmental requirements should be discussed with appropriate engineers, architects, contractors, other consultants and governmental agencies. All properties and services are marketed by Insite Commercial in compliance with all applicable fair housing and equal opportunity laws.

PROPERTY SUMMARY

Location: 37800 Cherry Hill
Westland, MI

Parcel ID#: 56-052-99-0031-000
56-052-99-0024-002

Total Land Size: 6.65 Gross acres
4.07 Net buildable acres

Sale Price: \$1,499,000

Utilities: All available

Zoning: I-1 Light Industrial

Property Taxes: +/- \$31,000 Annually

Demographics within

a 5 mile radius: Population: 236,099 Persons
Households: 99,958 Homes
Avg. HH Income: \$100,758
Traffic Count: 15,038 VPD on Cherry Hill

Comments: 6.65 Acres vacant land for sale on the north side of Cherry Hill, west of Newburgh Road. Approximately 2.58 acre of wetlands on site (see wetland map enclosed).

ARTICLE VI. INDUSTRIAL DISTRICTS

Sec. 6.1. Intent.

This article provides for development of a full range of industrial use in two districts, the I-1 light industrial district and the I-2 general industrial district. In addition to industrial uses, these two districts also provide for fringe commercial uses which are compatible with industrial uses, and are often incompatible with other commercial uses. The I-1 and I-2 districts are restricted to industrial and fringe commercial uses in order to ensure adequate area to meet the long-range demand for such uses. The I-1 light industrial district is intended to provide for light industrial activities which do not create an appreciable nuisance or hazard, and uses that require a pleasant, hazard- and nuisance-free environment. The I-2 general industrial district permits heavy industrial uses in addition to a full range of light industrial and fringe commercial uses.

Sec. 6.2. Permitted land uses.

In the industrial districts, land, buildings, and other structures shall be used only for one or more of the uses specified in table 6.2 below. Uses denoted by a "P" are permitted by right and uses denoted by a "SLU" are considered special land uses and may be approved by city council subject to the applicable standards and requirements of article XIII. Additional applicable use standards are listed in the column at right.

Accessory structures and uses incidental to the permitted or special land uses are also allowed and regulated by section 9.5.

Table 6.2
Industrial Use Table

Use Category/Use	Light Industrial	General Industrial	Use Standards
	I-1	I-2	
RECREATION USES			
Indoor commercial recreation, gaming and amusement establishments, including arcades, haunted houses, bowling alleys, pool halls, dance halls, gymnasiums, swimming pools, skating rinks and similar uses	SLU		
Fitness center or health club	SLU		
Shooting ranges, including, but not limited to, the firing of guns and/or bows and arrows, provided that such a facility is completely enclosed and sound proofed	SLU		
INSTITUTIONAL, EDUCATIONAL AND ASSEMBLY USES			
Clubs or lodges, private	SLU		
Trade and vocational schools	P	P	
Airports and heliports		P

<i>Slaughtering or processing of animals</i>			
<i>Stock yards</i>			

Sec. 6.3. Prohibited land uses.

6.3.1 *Prohibited uses in the I-1 District.* No building shall be erected or altered, and no land shall be used for any of the following in the I-1 District:

- a. Dwelling units and lodging rooms, other than watchmen's quarters.
- b. Basic or semi-finished chemicals manufacturing including, but not limited to, cellulose products; resins; dye stuffs; glue; vegetables, animal and mineral fats or oils, explosives, combustible gasses, soap, detergents, fertilizer derived from animal origins, asphaltic and tar products, including asphaltic paving materials.
- c. Cement manufacturing.
- d. Drop forging.
- e. Heavy chemicals manufacturing including, but not limited to, mineral acids or other corrosives, ammonia, caustic soap and sulfuric acid.
- f. Leather curing and tanning.
- g. Metal or alloy ingot manufacturing.
- h. Oil refineries.
- i. Open hearths and blast furnaces.
- j. Petroleum bulk storage.
- k. Processing, sale, storage or reclamation of junk of all kinds including automobile wrecking and storage.
- l. Slaughtering or processing of animals.
- m. Stock yards.

Sec. 6.4. Schedule of lot size, yard and building bulk requirements.

6.4.1 *Schedule of lot size, yard and building bulk requirements.* Lot size, yard and building bulk requirements for the industrial districts shall be as specified in Table 6.4.1. Supplemental requirements specific to certain districts are outlined in sections 6.5 and 6.6.

ZONING ORDINANCE

Table 6.4.1
Schedule of lot size, yard and building bulk requirements

District	Minimum Lot Size		Minimum Yard Setback Requirements for Principal and Accessory Structures (1)			Maximum Bulk Requirements
	Minimum Lot Area	Minimum Lot Width	Front Minimum	Side Minimum (2)	Rear Minimum (2)	Maximum Building Height
	(sq. ft.)	(lin. ft.)	(lin. ft.)	(lin. ft.)	(lin. ft.)	(feet)
I-1 Light Industrial District	10,000	100	35 (3)(4)(5)(6)	18 (3)(4)(5)(6)	20 (3)(4)(5)(6)	45
I-2 General Industrial District	43,560	122	75 (7)	25 (7)	25 (7)	45

FOOTNOTES TO TABLE 6.4.1:

1. Required front, side and rear yards shall be unobstructed from the ground level to the sky, except by natural vegetation and as allowed in subsections 9.6.4 and in article XI.
2. Side and rear yards which abut streets shall conform to the same yard setback requirements as front yards.
3. An additional 15 feet is required where adjacent to a residential district.
4. Areas for the temporary storage of garbage and trash shall not be located in any required or non-required front yard area or in any required side yard area, provided that this section shall not be interpreted to prevent placing of litter containers for the use of pedestrians outdoors. All areas for the temporary storage of garbage and trash, except litter containers for pedestrians, shall be enclosed on all sides subject to the standards in subsection 11.5.1.
5. Unsheltered parking shall be permitted in required side and rear yards, except that parking shall not be permitted in a required side or rear yard which abuts a street. Parking shall be permitted in unrequired side and rear yard areas.
6. Parking structures and shelters shall not be permitted in any required front, side, or rear yard. Parking structures and shelters shall be permitted in unrequired front, side and rear yards, provided that parking shelters which are in front yards shall be completely enclosed on all sides visible from streets.
7. An additional 25 feet is required where adjacent to a residential district.

Sec. 6.5. I-1 district supplemental requirements.

6.5.1 *Conditions.* Uses allowed in the I-1 light industrial district are subject to the following conditions:

- a. All business, servicing, or processing—except for off-street loading—shall be conducted within enclosed buildings, unless otherwise indicated hereinafter.
- b. All storage—except for licensed motor vehicles in operable condition—shall be within completely enclosed buildings or effectively screened by a solid wall or wooden fence, as determined by the planning commission (including solid entrance and exit gates), not less than six feet nor more than eight feet in height.
- c. The following machines and equipment shall not be used: punch presses, steam hammers, drop hammers, stamping machines, forging equipment, and automobile screw machines.

- d. Glare and heat from arc welding or similar processes shall be performed so as not to be seen from any point beyond the outside of the property.
- e. The measurable noise emanating from the premises used for the activities permitted under this article shall not exceed 70 decibels, as measured from the outside of the walls or roof of the building occupies for such uses.
- f. No storage or construction equipment materials nor construction materials shall exceed the eight feet in height, except for construction vehicles. Any toxic or liquid materials shall be stored in closed containers. All buffering of the site shall be determined by the building director and approved by the planning commission.

Sec. 6.6. I-1 and I-2 district supplemental requirements.

6.6.1 Site plan requirements.

- a. All public utilities shall be placed underground.
- b. All areas where motor vehicles may be driven or parked shall be paved with asphaltic or concrete surfacing of such thickness and design as may be required by engineering standards duly adopted by the city council.

6.6.2 Performance standards. The following performance standards shall apply within the industrial districts:

- a. Any activity involving the use or storage of flammable or explosive materials shall be protected by adequate firefighting and fire suppression equipment and such safety devices as are normally used in the handling of any such material. Such hazards shall be kept removed from adjacent activities to a distance which is compatible with the potential danger involved.
- b. No activity shall emit dangerous radioactivity at any point, or unreasonable electrical disturbance adversely affecting the operation at any point of any equipment other than that of the creator of such disturbance.
- c. No vibration shall be permitted which is discernible without instruments on any adjoining lot or property.
- d. Smoke shall not be emitted with a density greater than No. 1 on the Ringelmann Chart as issued by the U.S. Bureau of Mines except for once hourly blow-off periods of ten minutes duration when a density of not more than No. 2 is permitted.
- e. No malodorous gas or matter shall be permitted which is offensive or which produces a public nuisance or hazard on any adjoining lot or property.
- f. No pollution of air by fly-ash, dust, vapors, or other substances shall be permitted which is harmful to health, animals, vegetation or other property, or which can cause excessive soiling. Dust, dirt, smoke, or fly-ash shall not be in excess of three-tenth grains per cubic foot of flue gas at stack temperature of 500 degrees Fahrenheit and not to exceed 50 percent excess air.
- g. No direct or reflected glare shall be permitted which is visible from any property or from any public street, road, or highway. In particular, any operation or activity producing glare shall be so conducted that direct and indirect illumination from the source of light shall not cause illumination in excess of one-half of one footcandle when measured at any residence or business district boundary line. Flickering or intense source of light shall be so controlled as not to cause a nuisance across any lot lines.
- h. Pollution of water shall be subject to such requirements and regulations as are established by the Michigan State Department of Health, the Michigan Department of Natural Resources, the Wayne

ZONING ORDINANCE

County Health Department, and the U.S. Environmental Protection Agency. Such requirements and regulations shall apply in all cases except when they are less stringent than the following standards in which case the following standards shall apply:

- (1) No wastes shall be discharged in the public sewer system which is dangerous to the public health and safety.
 - (2) Acidity or alkalinity shall be neutralized to a ph of 7.0 as a daily average on a volumetric basis, with a maximum temporary variation of ph 5.0 to 10.0.
 - (3) Wastes shall contain no cyanides and no halogens and shall contain not more than 10 p.p.m. of the following gases: hydrogen sulphite, sulphur dioxide and nitrous oxide.
 - (4) Wastes shall not contain any insoluble substance in excess of 10,000 p.p.m. or exceeding a daily average of 500 p.p.m. or fail to pass a No. 8 Standard Sieve, or have a dimension greater than one-half inch.
 - (5) Wastes shall not have chlorine demand greater than 15 p.p.m.
 - (6) Wastes shall not contain phenols in excess of .005 p.p.m.
 - (7) Wastes shall not contain any grease or oil or any oil substance in excess of 100 p.p.m. or exceed a daily average of 25 p.p.m.
- i. *Interior uses.* The measurable noise emanating from the interior premises and as measured at the street or property line, may not exceed 65 decibels as measured on the "C" scale of a sound level meter constructed and calibrated in conformance to the requirements of the American National Standards Institute, unless otherwise stated in the specifications for the sound level meter. Objectionable noises, due to intermittence, beat frequency or shrillness, shall be muffled so as not to become a nuisance to adjacent uses. Sirens and related apparatus used solely for safety and other public purposes are exempt from this standard.
- j. *Exterior uses.* The measurable noise emanating from exterior uses and as measured at the street or property line, may not exceed 105 decibels as measured on the "C" scale of a sound level meter constructed and calibrated in conformance to the requirements of the American National Standards Institute, unless otherwise stated in the specifications for the sound level meter. Objectionable noises, due to intermittence, beat frequency or shrillness, shall be muffled so as not to become a nuisance to adjacent uses. Sirens and related apparatus used solely for safety and other public purposes are exempt from this standard.
