PROPERTY INFORMATION

Opportunity Overview

The subject property is currently 100% leased to Ford Motor Company (NYSE: F), a multinational automotive manufacturer, whose lease agreement runs through June 30, 2027. Ford Motor Company initially signed a 10 - year lease, with two 5- year options for the purpose of housing their large-scale IT services operation for which Ford fully upgraded and modernized the buildings IT and telecommunications infrastructure at that time. Ford has since vacated the building to back fill recent new developments within its downtown Detroit and nearby Dearborn world headquarters.

As a result, the following opportunities are immediately available:

- Sub-lease the building at below market rates (initial term through 6/30/27 w/ two 5 -year options)
- Re-cast the existing lease directly with the Landlord at a favorable market rate in order to address your company's unique needs and requirements.
- Purchase the property (vacant) at a price well below replacement cost.***
- Purchase the property as an investment (with the Ford lease) at a favorable market rate of return and well below the properties replacement cost.***
- Work with Landlord/Developer to reposition the property as a BTS for lease or sale as warehouse/distribution, R & D flex or manufacturing.

[*** The property may be purchased together with the adjacent property, 21111 Van Born Road, a 149,849 SF warehouse building situated on 12.67 acres with 676 parking spaces. 21111 Van Born Road is also 100% leased to Ford Motor Company with coterminous lease terms and below market lease rates. The building and site are both ideally situated and appropriately zoned for redevelopment.]

PROPERTY INFORMATION

Property Description

Well known as the “Masco” building for many years prior to Fords occupancy, the subject property is located at 21001 Van Born Road in Taylor, Michigan. This 415, 606 SF office building is situated within a beautiful campus setting with attractive landscaping on 18.05 acres. The building was originally built in 1966 as the world headquarters for Masco Corporation (NYSE:MAS) and renovated in 1989, 2003 and 2017. Constructed to an institutional quality using high end interior finishes reflecting Masco's brand and the character of its well-known founders and CEO Alex and son Richard Manoogian. As a part of the buildings' subsequent renovations, additions such as an on-site auditorium, a wellness center, a full-service cafe with commercial kitchen, and a fitness center. This building is currently 100% leased by Ford Motor Company (NYSE: F), who has a standing lease through June 30, 2027. At the end of their 10-year lease, the Tenant has the right to extend their lease for two 5-year periods.

This building is currently 100% leased by Ford Motor Company (NYSE: F) who has a standing lease through June 30, 2027. At the end of their 10-year lease, the Tenant has the right to extend their lease for two 5-year periods.

The property is well located near the Detroit Metropolitan Airport (10 minutes), General Motors/downtown (18 minutes) and Ford world headquarters (10 minutes), as well as being in close proximity to several Amazon Fulfilment Centers and warehouses and has excellent freeway visibility and quick access to I-94.

TENANT INFORMATION

Ford Motor Company (NYSE: F) is a global automotive and mobility company. Its core business includes designing, manufacturing, marketing, and servicing a full line of Ford cars, trucks, and SUVs, as well as Lincoln luxury vehicles. Ford provides financial services through Ford Motor Credit Company.

In 2021, Ford Motor Company was ranked number 21 on the Fortune 500 list, which represents the largest corporations in the United States by total revenue.

Ford has huge plans for the near future in the electric vehicle segment. Developments in the past year suggests that the company is not only serious about its EV ambitions but can also convert them to reality. Ford's CEO, Jim Farley, announced in November 2021 that the company plans to increase its annual EV production capacity to 600,000 vehicles by the end of 2023, which would make the company the second-largest U.S. based producer of EV's, just behind Tesla.

LEASE ABSTRACT – LEASE SUMMARY (CONTINUED)

Taxes paid by Tenant	All real property taxes and assessments.
Taxes paid by Landlord	None
Landlord replacement	Replacement of structural components of the building including, foundations, floor and ceiling slabs, roof, exterior walls and windows; and the MEP and fire/life safety systems serving the building but not involving those connected to tenants' fixtures and furnishings or tenants Alterations(8.1). The cost of all such replacements made by Landlord are "capital expenditures" and are reimbursable to Landlord, amortized on a straight-line basis over the useful life thereof.
Tenant repair, maintenance & reimbursement	Tenant shall be responsible during the lease for repair and maintenance of all MEP building systems. Furthermore, Tenant is responsible for the cost of all replacements made by Landlord to all building systems and structures and the same are reimbursable to Landlord, amortized on a straight-line basis over the useful life. Tenant pays the annual amortization installments (without interest) during the balance of the term. Tenant pays the entire cost without amortization if the need for replacement resulted from tenant's negligence. (8.2)
Alterations (Landlord consent required)	Yes, unless they do not (a) exceed \$100,000 per year, (b) affect the structural components or building systems, or (c) require a building permit. Special permission has been given to tenant, subject to certain requirements, to perform enumerated alterations to the premises
Landlord's work	None
Landlord's removal upon termination	If landlord does not require removal at the time its consent is given to tenant, alterations become the property of landlord on Lease expiration and are not removed by tenant.
Landlord insurance	Property insurance
Tenant insurance	Liability insurance (\$3,000,000 per occurrence; \$5,000,000 aggregate) naming landlord as additional insured
Proof of insurance	Tenant must supply landlord with certificate of insurance (or written letter by tenant if self-insured)
Assignment / Subletting	Consent required for all third-party transfers, not to be unreasonably withheld. Ford subsidiaries and affiliates excepted.
Surrender / Holdover:	Holdover is tenancy at sufferance at 125% of the last effective base rent during the first two (2) months of holdover and at 150% of then-current base rent thereafter.

OPPORTUNITY ZONE OVERVIEW

21001 and 21111 Van Born reside within an Opportunity Zone. An Opportunity Zone is an area that provides tax incentives to attract investments. Therefore the OZ program will not only create a financial impact but a social impact as well.

Qualified Opportunity Fund:

The Opportunity Zones offer attractive capital gains tax incentives that are available exclusively through the program. There are three types of tax incentives, each of which is tied to the investor(s)' stake in a Qualified Opportunity Fund (QOF). An Opportunity Fund is an investment which is organized as a corporation or partnership with the intent of investing in "Qualified Opportunity Zone Property."

- The fund must hold at least 90% of its assets in the zone property stocks, partnership interests, or business property.
- These funds are certified twice a year to ensure that 90% of their assets are held within an Opportunity Zone.
- Capital gains must be placed into an Opportunity Fund within 180 days of the realized gains.
- There is no approval needed by the IRS – an eligible taxpayer self-certifies to become a Qualified Opportunity Fund.

Opportunity Zone Tax Incentives:

- Temporary Deferral – Temporary Deferral of inclusion in taxable income for capital gains reinvested into an Opportunity Fund – This deferral gain is recognized on the earlier of:
 - The date on which the investment is disposed of, or
 - December 31, 2026
- Step-Up-Basis – In the Step-Up Basis for capital gains reinvested in an Opportunity Fund, the basis is increased by 10% if the investment is held for at least 5 years and an additional 5% if held for 7 years. **This would result in up to 15% of the original gain from taxation being excluded.**
- Permanent Exclusion – Permanent Exclusion applies when the investment is **held for at least 10 years**. This is the situation in which **an investor will pay no capital gains taxes** on any appreciation in the opportunity fund investment.

OPPORTUNITY ZONE OVERVIEW (CONTINUED)

Other Program Notes:

- The opportunity zones designation is set to expire in 2028, but the tax benefits are good until 2047. Furthermore, the tax plan is set to expire on December 31, 2026.
- Opportunity Fund Investments can be used with other incentives, such as New Market Tax Credits (NMTC), Low-Income Housing Tax Credits (LIHTC) and Historic Rehabilitation Tax Credits.
- An investor must be “accredited” in order to participate. This means that the investor(s) must have a net worth of over \$1 million and/or an annual income of \$200,000 individually or \$300,000 for a joint household.

1031 Exchanges vs Opportunity Zone Investments:

A common question that investors have is how an Opportunity Zone investment is different from a 1031 Exchange investment. In the case of 1031 Exchanges, the taxes can be deferred indefinitely, whereas Opportunity Zone investments allow for taxes on capital gains to be deferred until the end of 2026. Furthermore, in the case of Opportunity Zones, investments do not have to invest 100% of the proceeds of a sale into an Opportunity Zone investment. An investment just needs to roll any amount of the gain from selling an asset into an Opportunity Fund within 180 days of the sale.

An Example:

Say you brought an asset for \$1million dollars and sold it for \$11 million resulting in a \$10 million return on your investment. If you roll the entire \$10 million gain into an Opportunity Zone investment, then:

- Taxes on the \$10 million capital gain can be deferred until December 31, 2026 (unless the asset is disposed of earlier than that).
- If the investment is held for at least 5 years at the end of 2026, the capital gains liability would now be based on \$9 million.
- If the asset is held for 7 years by the end of 2026, then the capital gains tax liability would now be based on \$8.5 million.
- If the Opportunity Zone investment is sold for \$15 million, then the new gain of \$5 million would be tax-free if sold after a period of at least 10 years.

ABOUT WAYNE COUNTY

Wayne County is the most populated county in the State of Michigan, which is situated on the U.S.-Canada border with the two busiest northern border crossings in North America. Wayne County is a premier gateway to the global marketplace, with over 30,000 businesses total, 1,300 of those being foreign firms from 39 different countries.

With its strategic location, Wayne County attracts advanced manufacturing, automotive research and development, and global logistics companies.

ABOUT THE CITY OF DETROIT

The City of Detroit is built on the busiest northern border crossing in the U.S., which moves about \$44 billion in transported goods each year and the Detroit Metropolitan Airport connects your business to the world with more than 140 non-stop flight destinations to four continents.

While the “Motor City” is still the automotive capital of the U.S., it's not only this industry that is helping the city boom. Detroit is seeing incredible job growth since the COVID-19 pandemic crisis and is expected to recover to pre-pandemic levels by Q3 2022 and looking further ahead, things will only continue to progress with the abundance of long-planned projects coming to life, which include the Gordie Howe International Bridge, Ford's conversion of Michigan Central Station, Bedrock's Hudson's site, General Motors' Factory Zero, and a new Amazon distribution center at the Michigan State Fairgrounds. There are redevelopment projects on every corner and young entrepreneurs constantly opening new businesses. Local artists who are getting a chance to show the world their skills while writers are flocking to the city to experience its revival.

Detroit is also home to education and healthcare anchor institutions, Wayne State University, University of Michigan, University of Detroit Mercy, College for Creative Studies, Central Michigan University, Cleary University, and Grand Valley all have campuses in Detroit. Wayne State University, recognized as one of the top 50 research universities in the country, contributes to the State of Michigan's economic vibrancy through its partnership with the University of Michigan and Michigan State University as part of the University Research Corridor.
