Louisville Water wants to help you avoid costly messes this winter. Prevent frozen pipes by wrapping them, cover outside vents, and drip those faucets when temperatures plunge to 32 degrees or below. You should also know where your main water shutoff valve is located. Find more tips and easy-to-follow videos at [LouisvilleWater.com/ColdWeatherTips](http://LouisvilleWater.com/ColdWeatherTips).

**Message Center**

Louisville Water wants to help you avoid costly messes this winter. Prevent frozen pipes by wrapping them, cover outside vents, and drip those faucets when temperatures plunge to 32 degrees or below. You should also know where your main water shutoff valve is located. Find more tips and easy-to-follow videos at [LouisvilleWater.com/ColdWeatherTips](http://LouisvilleWater.com/ColdWeatherTips).
