No Explain: _____

Seller agrees (i) to disclose to Buyer and all prospective buyers/tenants/subtenants all information in Seller's possession regarding the conditions of the Property and the presence at the Property of any of the substances or items listed above; (ii) to make available to Buyers and all prospective buyers/tenants/subtenants all inspection reports pertaining to the condition of the Property and the presence or absence of such substances or items; and (iii) that Debbie Stewart is hereby authorized to disclose to any prospective buyer/tenant/subtenant any information regarding the condition of the property and the presence of any such substances or items listed above.

It is essential that all parties to real estate transactions be aware of the health, liability and economic impact of environmental factors on real estate. The JP Public Real Estate does not conduct investigations or analyses of environmental matters and, accordingly, urges prospective users to retain qualified environmental professionals to determine whether hazardous or toxic wastes or substances (such as asbestos, PCBs and other contaminants or petrochemical products stores in underground tanks) or other undesirable materials or conditions are present at the Property and, if so, whether any health danger or other liability exists. Such substances may have been used in the construction or operation of the buildings or may be present as a result of previous activities at the property.

Various laws and regulations have been enacted at the federal, state and local levels dealing with the use, storage, handling, removal, transport and disposal of toxic and/or hazardous wastes and substances. Depending upon past, current and proposed uses of the Property, it may be prudent to retain an environmental expert to conduct a site investigation and/or building inspection. If hazardous or toxic substances exist or are contemplated to be used at the Property, special governmental approvals or permits may be required. In addition, the cost of removal and disposal of such materials may be substantial. Consequently, legal counsel and technical experts should be consulted where these substances are or may be present.

This statement is a Disclosure of Seller's knowledge of the condition of the property as of the date signed by Seller and is not a substitute for any inspections or warranties the Buyer may wish to obtain. It is not a warranty of any kind by Seller or Warranty or representation of the listing agent, any cooperating broker and their agents, the Greater Louisville Association of REALTORS Inc., Metro Search, Inc. or the Kentucky Association of REALTORS. Any changes to the above will be disclosed by Seller to Buyer prior to closing. Seller/Buyer hereby acknowledge receipt of a copy of this Disclosure.

Seller and Buyer understand that JP Public Real Estate (Broker's Firm Name) in no way warrants or guarantees the above information on the property.

Seller declines to provide the information on this form.
