

# The Happiness Index

Shape your future

By sharing your feedback, you play a key role in your organisation's success and create a better workplace for everyone.

The Happiness Index

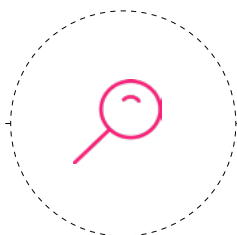

The Happiness Index makes it simple and speedy to give your feedback.

Let's build a better culture together!

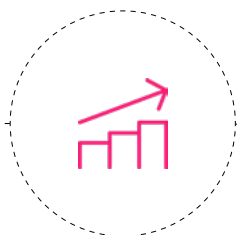

Feedback

Insight

Action

The Happiness Index is an employee engagement and happiness platform that helps organisations connect with their most important people – **You!**

Here's your opportunity to:

- ✓ Make a real difference in your culture, work environment, and even your career.
- ✓ Have a say in how your organisation works.
- ✓ Share your thoughts, ideas, and any worries you might have.
- ✓ Help improve your day-to-day work life.

## How it works...

After you get an invite, you can quickly rate your experience with a score out of 10.

You can also add comments to explain your score and give suggestions.

Your feedback is always anonymous, so your organisation can't identify who said what.

Your feedback is shared in real-time, which means your managers can start making improvements fast!
